* Minimum deposit per fund is \$500. Minimum deposit for contracts registered as RRIF or containing locked-in money is \$10,000.

** Minimum PAD amount per fund is \$25.

*** Valuation of the market value is performed periodically in accordance with our administrative rules.

The Company will perform a periodic evaluation to determine which Series the client qualifies for. The Company will take into consideration the market value of the units attributed to all individual variable insurance contracts offered by the Company (Helios2 contract and all contracts previously offered by the Company only) for which the client are the Owner. For the purposes of the evaluation, contracts held in the client name and contracts held externally in a nominee or an intermediary account(s) are not calculated together. If the client meets the \$250,000 threshold for Series 8, they will automatically be eligible for the lower Management Expense Ratios (MERs) of this Series. Note however that the lower MER will apply to deposits in the current contract only.

Conversely, if it is noted that the market value of the units attributed to the client's individual variable insurance contracts with the Company (Helios2 contract and all contracts previously offered by the Company only) is less than \$150,000, even if the client had previously qualified for the lower Management Expense Ratios of Series 8, the Company will switch Series 8 Units to Series 6 Units. Note however that the higher MER will apply to Deposits in the current contract only.
