

Desjardins Group posts surplus earnings of \$960 million for the first quarter of 2026

MESSAGE FROM SENIOR MANAGEMENT

Lévis, May 13, 2026 – The results announced today by Desjardins Group give it all the leverage it needs to continue its mission of driving community development and giving its members and clients the support they need to be financially empowered. For the first quarter of 2026, the provision for member dividends totalled \$151 million, up 33.6%, compared to \$113 million for the comparable period of 2025. Amounts returned in the form of sponsorships, donations and scholarships totalled \$31 million, of which \$15 million came from the caisses' Community Development Fund.

Desjardins Group recorded surplus earnings before member dividends of \$960 million for the first quarter ended March 31, 2026, up \$222 million, or 30.1%, compared to the same period of 2025. Total net revenue rose by 11.4%, driven in particular by the performance of the Personal and Business Services segment, which benefited from higher net interest income, mainly tied to business growth. The Property and Casualty Insurance segment recorded higher income from automobile and property insurance. As for the Wealth Management and Life and Health Insurance segment, growth in its other income linked to assets under management and under administration was offset by a decrease in net insurance service income.

Personal and Business Services: Surplus earnings of \$607 million, up \$208 million compared to the same period in 2025, mainly due to the growth in net interest income and in other income as a result of business growth. In addition, the provision for credit losses remained comparable to what it was in the first quarter of 2025. Lastly, non-interest expense posted a moderate increase of 1.3%, reflecting the focus on expenditure management.

Wealth Management and Life and Health Insurance: Surplus earnings of \$130 million, down \$38 million, compared to the first quarter of 2025, due to the following:

- Decline in the insurance service result, primarily stemming from the less favourable experience in disability insurance.
- Decrease in the net insurance finance result, mainly due to market developments.

This decline was mitigated by the increase in other income tied to the growth in assets under management and under administration.

Property and Casualty Insurance: Surplus earnings of \$154 million, up \$120 million, compared to the first quarter of 2025. The change was essentially due to the following:

- Higher insurance revenue mainly due to growth in automobile and property insurance premiums.
- Decrease in insurance service expenses as a result of the less favourable effect of the loss component on onerous contracts.

Desjardins Group maintains strong capitalization levels, in accordance with Basel III requirements. As at March 31, 2026, its Tier 1A and total capital ratios were therefore 23.2% and 26.1%, respectively, compared to 23.7% and 26.1%, respectively, as at December 31, 2025.

"These results confirm the strength of Desjardins's cooperative model and the confidence of its members and clients, while Guardian officially joins Desjardins Group," said Denis Dubois, President and CEO of Desjardins Group. "This acquisition strengthens the expertise available to Desjardins's members and enables Guardian clients to benefit from the strength of Desjardins Group. Despite a challenging economic environment, this performance allows us to continue our support to members and communities, including through investments in affordable housing and support for the Fondation Autiste & majeur to create new centres in Bas-Saint-Laurent and Mauricie, thus contributing to the economic development of Québec and Canada."

ENHANCED DISCLOSURE TASK FORCE RECOMMENDATIONS INDEX

Disclosures made under the 32 recommendations of the Enhanced Disclosure Task Force (EDTF), established by the Financial Stability Board, are presented in the 2025 Annual Report and the Interim Financial Report for the first quarter of 2026, as well as in Supplemental Financial Information and the Pillar 3 Report, which are available on Desjardins Group's website at www.desjardins.com/ca/about-us/investor-relations. Supplemental Financial Information and the Pillar 3 Report are not incorporated by reference in this Management's Discussion and Analysis (MD&A).

Below is a summary of disclosures under the EDTF recommendations aimed at enhancing risk disclosure and transparency, and the location of the disclosures (page number):

Type of risk	Recom- mendation	Disclosure	2025 Annual Report	First quarter of 2026

MANAGEMENT'S DISCUSSION AND ANALYSIS

Desjardins Group (hereinafter also referred to as Desjardins) comprises the Desjardins caisses in Quebec and Caisse Desjardins Ontario Credit Union Inc. (the caisses), the Fédération des caisses Desjardins du Québec (the Federation) and its subsidiaries, and the Fonds de sécurité Desjardins.

The Management's Discussion and Analysis (MD&A) dated May 13, 2026, presents an analysis of the results of and main changes to Desjardins Group's balance sheet for the period ended March 31, 2026, in comparison with prior periods. Desjardins Group reports financial information in compliance with *Regulation 52-109 respecting Certification of Disclosure in Issuers' Annual and Interim Filings* (Regulation 52-109) prescribed by the Canadian Securities Administrators (CSA). Unlike the Federation, Desjardins Group is not a reporting issuer, on a combined basis, under this or any other applicable securities regulation. Pursuant to Decision No. 2021-FS-0091 of the Autorité des marchés financiers (AMF) dated April 23, 2021, the Combined Financial Statements and MD&As of Desjardins Group are to be filed by the Federation in place of the Consolidated Financial Statements and MD&As of the Federation, in order to meet its financial disclosure obligations as a reporting issuer under *Regulation 51-102 respecting Continuous Disclosure Obligations* of the CSA, and the Federation will maintain controls and procedures with respect to the Combined Financial Statements and MD&As of Desjardins Group in compliance with Regulation 52-109. Since April 23, 2021, and pursuant to the AMF and CSA decision, the Federation has used the financial statements and MD&As of Desjardins Group for all relevant purposes under the applicable securities regulations. Information on the controls and procedures with respect to the Combined Financial Statements and MD&As of Desjardins Group may be found in the "Additional information" section of this MD&A.

This MD&A should be read in conjunction with the unaudited Condensed Interim Combined Financial Statements (the Interim Combined Financial Statements), including the notes thereto, as at March 31, 2026, and Desjardins Group's 2025 Annual Report (the 2025 Annual Report), which contains the MD&A and the audited Annual Combined Financial Statements (the Annual Combined Financial Statements).

Additional information about Desjardins Group is available on the SEDAR+ website at www.sedarplus.ca (under the Fédération des caisses Desjardins du Québec profile). The Annual Information Form of the Federation can be found on SEDAR+ as well. Further information is available on the Desjardins website at www.desjardins.com/ca/about-us/investor-relations. None of the information presented on these sites is incorporated by reference into this MD&A.

This MD&A was prepared in accordance with the regulations in force on continuous disclosure obligations issued by the CSA. Unless otherwise indicated, all amounts are presented in Canadian dollars (\$) and are primarily from Desjardins Group's Annual and Interim Combined Financial Statements, which have been prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), and the accounting requirements of the AMF, which do not differ from IFRS. IFRS represent Canadian generally accepted accounting principles (GAAP). On January 1, 2026, Desjardins Group adopted the amendments to IFRS 7, "Financial Instruments: Disclosures," and IFRS 9, "Financial Instruments." Comparative data have not been restated. For more information, refer to Note 2, "Accounting policies," to the Interim Combined Financial Statements.

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

Desjardins Group's public communications from time to time include oral or written forward-looking statements, within the meaning of applicable securities legislation, particularly in Quebec, Canada and the United States. Forward-looking statements are found in this MD&A and may also be incorporated in other filings with Canadian regulators or in any other communications. In addition, Desjardins Group's representatives may make oral forward-looking statements to investors, the media and other parties.

The forward-looking statements include, but are not limited to, comments on Desjardins Group's objectives regarding financial performance, priorities, vision, operations, targets and commitments, its strategies to achieve them, its results and its financial position, economic as well as financial market conditions, the outlook for the Quebec, Canadian, U.S. and global economies, and the regulatory environment in which we operate. Such forward-looking statements are typically identified by words or phrases such as "target," "objective," "timing," "outlook," "believe," "predict," "foresee," "expect," "intend," "have as a goal," "estimate," "plan," "forecast," "anticipate," "aim," "propose," "should" and "may," words and expressions of similar import, and future and conditional verbs, in all their grammatical variants.

By their very nature, such statements require us to make assumptions, and are subject to uncertainties and inherent risks, both general and specific. Desjardins Group cautions readers against placing undue reliance on forward-looking statements when making decisions since a number of factors, many of which are beyond Desjardins Group's control and the effects of which can be difficult to predict, could influence, individually or collectively, the accuracy of the assumptions, predictions, forecasts or other forward-looking statements, including those in this MD&A. Although Desjardins Group believes that the expectations expressed in these forward-looking statements are reasonable and founded on valid bases, it cannot guarantee that these expectations will materialize or prove to be accurate. It is also possible that these assumptions, predictions, forecasts or other forward-looking statements, as well as Desjardins Group's objectives and priorities, may not materialize or may prove to be inaccurate, and that actual future results, conditions, actions or events may differ materially from targets, expectations, estimates or intentions that have been explicitly or implicitly put forward. Readers who rely on these forward-looking statements must carefully consider these risk factors and other uncertainties and potential events, including the uncertainty inherent in forward-looking statements.

The significant risk factors that may affect the accuracy of the forward-looking statements in this MD&A include those discussed in the "Risk management" section of Desjardins Group's 2025 annual MD&A and this MD&A for the first quarter of 2026, and include credit, market, liquidity, operational, insurance, strategic and reputation risk, environmental, social and governance risk, and regulatory risk.

Such factors also include those related to security (including cybersecurity) breaches, the uncertainty surrounding evolving cybersecurity threats given rapid developments in technological capabilities, fraud risk, fluctuations in the real estate market and household and corporate indebtedness, regulatory developments, including changes to liquidity and capital adequacy guidelines, and requirements relating to their presentation and interpretation, as well as interest rate and exchange rate fluctuations, inflation, climate change, geopolitical uncertainty, including the conflict in the Middle East and its impact, in particular, on oil and gas prices, technological innovation, including the use of artificial intelligence, and data risk. Furthermore, there are factors related to the trade tensions with the United States and the impact that tariffs on certain Canadian exports as well as any resulting retaliatory tariffs could notably have on goods and services, businesses in certain industries, and the Canadian economy. Also of note are factors related to general economic and business conditions in regions in which Desjardins Group operates, including the risk of recession; as well as factors related to the critical accounting estimates and accounting standards applied by Desjardins Group; increased competition; geographic concentration; changes in the credit ratings assigned to Desjardins Group; reliance on third parties, including third parties' failure to fulfill their obligations to Desjardins Group; the ability to recruit and retain talent; and tax risk. Other factors include changes in consumer spending and saving habits, the potential impact of international conflicts on operations, public health crises, such as pandemics and epidemics, or any other similar events affecting the local, national or global economy, as well as Desjardins Group's ability to anticipate and properly manage the risks associated with these factors despite a disciplined risk management environment. Additional information about these factors is found in the "Risk management" section of Desjardins Group's 2025 annual MD&A and of this MD&A for the first quarter of 2026.

It is important to note that the above list of factors that could influence future results is not exhaustive. Other factors could have an effect on Desjardins Group's results. Additional information about these and other factors is found in the "Risk management" section of Desjardins Group's 2025 annual MD&A and of this MD&A for the first quarter of 2026.

The significant economic assumptions underlying the forward-looking statements in this MD&A are described in the "Economic environment and outlook" section of Desjardins Group's 2025 annual MD&A and of this MD&A for the first quarter of 2026, and can be updated in quarterly MD&As filed thereafter. To determine economic growth forecasts in general, and for the financial services sector in particular, Desjardins Group mainly uses historical economic data provided by recognized and reliable organizations, empirical and theoretical relationships between economic and financial variables, expert judgments, and observed upside and downside risks for the domestic and global economies.

Any forward-looking statements contained in this MD&A represent the views of management only as at the date hereof, and are presented for the purpose of assisting readers in understanding and interpreting Desjardins Group's financial position as at the dates indicated or its results for the periods then ended, as well as its strategic priorities and objectives as considered as at the date hereof. These forward-looking statements may not be appropriate for other purposes. Desjardins Group does not undertake to update any oral or written forward-looking statements that could be made from time to time by or on behalf of Desjardins Group, except as required under applicable securities legislation.

NON-GAAP AND OTHER FINANCIAL MEASURES

To measure its performance, Desjardins Group uses different GAAP (IFRS) financial measures and various other financial measures, some of which are non-GAAP financial measures. *Regulation 52-112 respecting Non-GAAP and Other Financial Measures Disclosure* (Regulation 52-112) provides guidance to issuers disclosing specified financial measures, including those used by Desjardins Group below:

- Non-GAAP financial measures.
- Non-GAAP ratios.
- Supplementary financial measures.

Non-GAAP financial measures and ratios

Non-GAAP financial measures and ratios used by Desjardins Group, and which do not have a standardized definition, are not directly comparable to similar measures used by other companies, and may not be directly comparable to any GAAP measures. Regulation 52-112 states, among other things, that any ratio with at least one non-GAAP financial measure meets the definition of a non-GAAP ratio. These non-GAAP financial measures and ratios may be useful to investors, among others, in analyzing Desjardins Group's overall performance or financial position. They are defined as follows:

Net interest margin

Net interest margin, which is a non-GAAP ratio, is used to measure the profitability of core interest-bearing assets, net of financing cost. It is equal to net interest income on core assets expressed as a percentage of average core interest-bearing assets.

Average interest-bearing assets is a non-GAAP financial measure that reflects Desjardins Group's financial position and is used to exclude assets not generating net interest income from average assets. Average interest-bearing assets consist of securities, including those borrowed or purchased under reverse repurchase agreements, cash and deposits with financial institutions, as well as loans. Average interest-bearing assets do not include life and health insurance and property and casualty insurance assets as well as all other assets not generating net interest income.

Average core interest-bearing assets is a non-GAAP financial measure that is used to exclude assets related to trading activities from average interest-bearing assets, when calculating net interest margin.

Net interest income on core assets is a non-GAAP financial measure that is used to exclude net interest income generated by non-core assets from net interest income.

The table below presents the reconciliation of non-GAAP financial measures with financial measures presented in accordance with GAAP in the Combined Financial Statements and used to calculate net interest margin.

Net interest margin

(in millions of dollars and as a percentage)	For the three-month periods ended		
	March 31, 2026	December 31, 2025	March 31, 2025
Average assets – as presented	\$ 517,281	\$ 511,049	\$ 479,444
Less: Assets not generating net interest income	104,217	101,500	92,439
Average interest-bearing assets	413,064	409,549	387,005
Less: Assets related to trading activities	40,709	39,250	39,566
Average core interest-bearing assets	\$ 372,355	\$ 370,299	\$ 347,439
Net interest income – as presented	\$ 2,187	\$ 2,151	\$ 1,967
Less: Net interest income from non-core assets	38	24	2
Net interest income on core assets	\$ 2,149	\$ 2,127	\$ 1,965
Net interest margin⁽¹⁾	2.34%	2.28%	2.29%

⁽¹⁾ Corresponds to an annualized calculation that takes into account the number of days in the period concerned.

Net interest margin – Personal and Business Services

The Personal and Business Services segment's net interest margin, which is a non-GAAP ratio, is used to measure the profitability of core interest-bearing assets, net of financing cost. It is equal to net interest income on core assets expressed as a percentage of average core interest-bearing assets.

Average core interest-bearing assets is a non-GAAP financial measure that reflects the Personal and Business Services segment's financial position and is used to exclude assets not generating net interest income and certain other assets from average assets, when calculating net interest margin. The Personal and Business Services segment's average core interest-bearing assets include securities, cash and deposits with financial institutions, as well as loans, and excludes assets related to trading activities as well as assets related to capital market and liquidity management activities, and all other assets not generating net interest income.

Net interest income on core assets is a non-GAAP financial measure that is used to exclude net interest income generated by non-core assets from net interest income.

The table below presents the reconciliation of non-GAAP financial measures with financial measures presented in accordance with GAAP in the Combined Financial Statements and used to calculate net interest margin for the Personal and Business Services segment.

Net interest margin – Personal and Business Services

(in millions of dollars and as a percentage)	For the three-month periods ended		
	March 31, 2026	December 31, 2025 ⁽¹⁾	March 31, 2025 ⁽¹⁾
Average assets – as presented	\$ 389,464	\$ 388,895	\$ 364,460
Less: Assets not generating net interest income	7,256	6,558	6,506
Average interest-bearing assets	382,208	382,337	357,954
Less: Assets related to trading activities	39,377	40,559	39,174
Less: Other deductions ⁽²⁾	56,648	57,907	52,934
Average core interest-bearing assets	\$ 286,183	\$ 283,871	\$ 265,846
Net interest income – as presented	\$ 2,114	\$ 2,014	\$ 1,818
Less: Net interest income from non-core assets	114	77	121
Net interest income on core assets	\$ 2,000	\$ 1,937	\$ 1,697
Net interest margin – Personal and Business Services⁽³⁾	2.83%	2.71%	2.59%

⁽¹⁾ Changes have been made to the model used to allocate net interest income between segments. For the three-month periods ended December 31, 2025 and March 31, 2025, these changes would have resulted in an increase of \$31 million and \$85 million, respectively, in "Net interest income" and a decline of \$62 million and \$18 million, respectively, in "Other income" – Personal and Business Services, with a corresponding opposite impact in the same line items within the Other segment. No comparative data have been restated.

⁽²⁾ From assets related to capital market and liquidity management activities.

⁽³⁾ Corresponds to an annualized calculation that takes into account the number of days in the period concerned.

Loss ratio – Expense ratio – Ratio of losses on onerous contracts – Combined ratios

The following non-GAAP ratios, which are net of reinsurance, are used to analyze the performance of the Property and Casualty Insurance segment and more specifically:

- Loss ratio (undiscounted): Used as a measure of business quality.
- Expense ratio: Used as a measure of the effectiveness of non-interest expense management, excluding certain items such as non-interest expense related to claims.
- Ratio of losses on onerous contracts: Used as a measure of the effect of onerous contracts on profitability.
- Combined ratio (discounted and undiscounted): Used as a measure of business profitability, excluding the effect of the net insurance finance result and certain other income.

The loss ratio is equal to the net claims expenses expressed as a percentage of net insurance revenue. Net claims expenses is a non-GAAP financial measure, which is used to exclude policy costs and acquisition costs, as well as the effect of the loss component on onerous contracts and the effect of discounting net liabilities for incurred claims, and to take into account incurred claims and costs of ceded claims.

Net insurance revenue is a non-GAAP financial measure. It is used to exclude premiums paid related to reinsurance activities and is the denominator in calculating the following ratios: loss ratio, expense ratio and ratio of losses on onerous contracts.

The loss ratio is comprised of the following ratios:

- Current year loss ratio, which is the loss ratio excluding catastrophe and major event claims expenses for the current year as well as claims expenses for changes in prior year claims, net of related reinsurance held.
- Loss ratio related to catastrophes and major events, which is the loss ratio including catastrophe and major event claims expenses for the current year, net of related reinsurance held.
- Ratio of changes in prior year claims, which is the loss ratio including changes in prior year claims, net of related reinsurance held.

The expense ratio is equal to non-interest expense, excluding non-interest expense related to claims and certain items, expressed as a percentage of net insurance revenue. Non-interest expense excluding non-interest expense related to claims and certain items is a non-GAAP financial measure. It is used to consider all expenses excluding investment management fees and some other specific items.

The ratio of losses on onerous contracts is equal to the effect of the loss component on net onerous contracts expressed as a percentage of net insurance revenue. The effect of the loss component on net onerous contracts is a non-GAAP financial measure, which is used to include losses and reversals of losses on net onerous contracts, as well as decreases in the loss component related to past services, net of reinsurance.

The combined ratio is equal to the sum of the loss ratio, the expense ratio and the ratio of losses on onerous contracts.

The discounted combined ratio is equal to the combined ratio, including the effect of discounting net liabilities for incurred claims.

The following table presents the reconciliation between non-GAAP financial measures and the financial measures presented in accordance with GAAP in the Combined Financial Statements and used to calculate the loss ratio, the expense ratio, the ratio of losses on onerous contracts, and the combined ratios for the Property and Casualty Insurance segment.

Loss ratio – Expense ratio – Ratio of losses on onerous contracts – Combined ratios

(in millions of dollars and as a percentage)	For the three-month periods ended		
	March 31, 2026	December 31, 2025	March 31, 2025
Insurance revenue – as presented	\$ 2,018	\$ 2,059	\$ 1,931
Less: Premiums paid related to reinsurance activities ⁽¹⁾	100	109	96
Net insurance revenue	\$ 1,918	\$ 1,950	\$ 1,835
Insurance service expenses – as presented	\$ 1,781	\$ 1,464	\$ 1,790
Less: Policy costs and acquisition costs	402	431	360
Less: Effect of loss component on onerous contracts	72	(95)	165
Less: Effect of discounting net liabilities for incurred claims	(77)	(49)	(69)
Less: Incurred claims and costs of ceded claims ⁽¹⁾	94	52	48
Net claims expenses⁽²⁾	\$ 1,290	\$ 1,125	\$ 1,286
Gross non-interest expense – as presented	\$ 295	\$ 311	\$ 276
Less: Non-interest expense related to claims ⁽³⁾ and certain items ⁽⁴⁾	118	120	110
Plus: Acquisition costs and certain policy costs included in insurance service expenses	332	358	301
Non-interest expense excluding non-interest expense related to claims and certain items	\$ 509	\$ 549	\$ 467
Effect of loss component on onerous contracts	\$ 72	\$ (95)	\$ 165
Less: Effect of loss component on ceded onerous contracts ⁽¹⁾	3	4	9
Effect of loss component on net onerous contracts	\$ 69	\$ (99)	\$ 156
Loss ratio⁽²⁾	67.3%	57.7%	70.1%
Expense ratio	26.5	28.2	25.4
Ratio of losses on onerous contracts	3.6	(5.1)	8.5
Combined ratio⁽²⁾	97.4	80.8	104.0
Discounted combined ratio	93.4	78.3	100.3

⁽¹⁾ These items are included under "Net reinsurance service income (expenses)."

⁽²⁾ Undiscounted ratio or data, therefore excluding the effect of discounting net liabilities for incurred claims.

⁽³⁾ Represents non-interest expense directly related to claims adjustments, which are presented under "Insurance service expenses."

⁽⁴⁾ From investment management fees and certain other specific items.

[Return to members and the community](#)

As a cooperative financial group contributing to the development of communities, Desjardins Group gives its members and clients the support they need to be financially empowered. The amount returned to members and the community, a non-GAAP financial measure, is used to present the overall amount returned to the community and is composed of member dividends, as well as sponsorships, donations and scholarships.

More detailed information about the amount returned to members and the community may be found in the "Financial highlights" table on page 10 of this MD&A.

Supplementary financial measures

In accordance with Regulation 52-112, supplementary financial measures are used to show historical or expected future financial performance, financial position or cash flows. In addition, these measures are not disclosed in the financial statements. Desjardins Group uses certain supplementary financial measures, and their composition is presented in the Glossary on pages 47 to 52.

CHANGES IN THE REGULATORY ENVIRONMENT

Desjardins Group closely monitors regulations for financial products and services, as well as new developments, particularly in fraud, corruption, tax evasion, privacy protection, money laundering, terrorist financing, and domestic and international economic sanctions in order to mitigate any negative impact on its operations, and aims to comply with best practices in this regard. Additional information can be found in the "Regulatory environment" section of Desjardins Group's 2025 annual MD&A. Further information about regulatory developments is provided in the "Capital management" section and "Risk management" section of this MD&A for the first quarter of 2026.

Since the release of Desjardins Group's 2025 annual MD&A, the changes in the regulatory environment described below must also be considered:

The Proceeds of Crime (Money Laundering) and Terrorist Financing Act (PCMLTFA)

Bill C-12 received Royal Assent in the first quarter of 2026. The Bill contains, in particular, an increase in current administrative monetary penalties that may be imposed by FINTRAC, the creation of new penal offences, and the mandatory registration of all reporting entities with FINTRAC. Certain provisions are currently in force, notably the new administrative monetary penalties and criminal offences.

On February 19, 2026, FINTRAC announced that a new liaison function would be established, particularly to share best practices to fight extortion and to enhance information sharing between law enforcement, the government and financial institutions. FINTRAC will also provide financial institutions with Targeted Indicator Profiles associated with extortion. Desjardins Group complies with the requirements, and is actively participating in public consultations organized by FINTRAC.

Lastly, the new Canada Financial Crimes Agency, which is slated for spring 2026, aims to be a centralized effort to fight against financial crime.

Protection of personal information and Information security

Following Quebec's regulatory reform of personal information protection between 2021 and 2024, Canada's Minister of Artificial Intelligence and Digital Innovation confirmed that his office was currently preparing new privacy protection legislation to replace Bill C-27, which had died on the Order Paper in January 2025. Desjardins Group is closely monitoring how the federal government intends to reform privacy protection legislation.

Federal Bill C-15, introducing the new legislative framework for banking services applicable to open financial services, was passed by the House of Commons on February 26, 2026, and received Royal Assent on March 26, 2026. Compliance with this new legislative framework will be a major undertaking for Desjardins, and it will start with an application for accreditation with the Bank of Canada. Service providers as well as data recipients will also need to be accredited. Desjardins Group is continuing its work to align with the regulatory framework in effect to ensure that any project implemented within the organization complies with the framework.

Artificial intelligence (AI)

Given the tremendous growth in artificial intelligence, regulatory authorities are ramping up their efforts to regulate these technologies and ensure their responsible use. On April 7, 2026, the AMF issued a final version of its *Guideline for the Use of Artificial Intelligence*, setting out its expectations for the measures that financial institutions must take to properly supervise and manage the risks in using artificial intelligence systems. Analyses are underway to ensure that Desjardins Group complies with this Guideline, which is scheduled to come into force on May 1, 2027.

Third-Party Risk Management Guideline

In March 2026, the AMF issued the *Third-Party Risk Management Guideline*, which specifies and formalizes the AMF's expectation regarding management of this risk. The Guideline is intended to promote sound and prudent management of third-party relationships and enhance financial institutions' resilience. The expectations in this Guideline apply to all third-party arrangements and must be implemented proportionately, taking into account the criticality and risk level specific to each arrangement. Analyses are underway to ensure Desjardins Group's compliance with this Guideline that is to take effect on April 1, 2027.

Pillar 3 Disclosure Requirements

Desjardins Group continues to monitor changes in financial disclosure requirements under global standards developed by the Basel Committee on Banking Supervision. These Pillar 3 requirements aim to enhance comparability with other financial institutions, transparency and disclosure with regard to regulatory capital adequacy and risk exposure. A Pillar 3 report is issued by Desjardins Group in order to be compliant. In addition, on February 12, 2026, the AMF launched a public consultation to update the *Pillar 3 Disclosure Requirements Guideline*. The new Guideline will be implemented as of July 1, 2026, and Desjardins Group sent the AMF its comments by the prescribed deadline. The review of this Guideline provides, in particular, for adding new disclosure requirements for financial institutions' crypto-asset exposures. As at March 31, 2026, Desjardins Group was not exposed to crypto assets.

Competition Act

On June 5, 2025, the Competition Bureau Canada issued its final guidelines for environmental claims. This initiative follows the legislative amendments dated June 20, 2024, which introduced new provisions to regulate greenwashing in the *Competition Act*. Since July 1, 2025, these provisions have been fully in force and now allow private parties to file complaints with the Competition Tribunal, particularly in cases of misleading environmental claims. Businesses must ensure that their environmental claims are based on adequate and appropriate corroborative evidence obtained through recognized methods when they are made to promote benefits for a business or its operations. It is up to the business concerned to prove the validity of these claims.

At the same time, some legislative bills, including Bill C-15, propose to adjust certain provisions related to greenwashing, particularly by amending requirements for recognized methods and regulating private remedies. Desjardins Group complies with the requirements of the *Competition Act* and continues to closely monitor regulatory developments and enforcement practices in order to ensure full compliance.

DESJARDINS GROUP PROFILE

Desjardins Group is the largest cooperative financial group in Canada, ranking 8th in the world. As at March 31, 2026, the organization included 188 caisses in Quebec and Caisse Desjardins Ontario Credit Union Inc., the Fédération des caisses Desjardins du Québec and its subsidiaries, and the Fonds de sécurité Desjardins. A number of its subsidiaries and components are active across Canada, and Desjardins Group maintains a presence internationally through Desjardins Bank, National Association, Desjardins Florida Branch, and since March 23, 2026, through Guardian Capital Group Limited. Through its Personal and Business Services, Wealth Management and Life and Health Insurance, and Property and Casualty Insurance business segments, Desjardins Group offers a full range of financial services to members and clients designed to meet their needs.

The Federation is a cooperative entity that is responsible for assuming orientation, framework, coordination, treasury and development activities for Desjardins Group and acts as a financial agent on Canadian and foreign financial markets. It provides its member caisses with a variety of services, including certain technical, financial and administrative services. It acts as a monitoring and control organization for the caisses, and its mission includes risk management and capital management for Desjardins Group, as well as ensuring the financial soundness and sustainability of the Desjardins Cooperative Group (composed of the Desjardins caisse network in Quebec, the Federation and the Fonds de sécurité Desjardins), pursuant to the *Act respecting financial services cooperatives* (AFSC). The Federation acts as treasurer and official representative of Desjardins Group with the Bank of Canada and the Canadian banking system, among other things. The Federation also has the right to participate in the Visa Inc. and MasterCard Inc. payment systems in Canada on behalf of Desjardins Group. In addition, it manages majority interests in joint-stock companies through holding companies.

The AFSC provides that the entities comprising the Desjardins Cooperative Group may be amalgamated into a single legal entity to be wound up, as these entities cannot be wound up in any other manner. It should be mentioned that Caisse Desjardins Ontario Credit Union Inc. is excluded from this amalgamation-liquidation provided for in the Act.

Summary additional information about the entities that are not part of the Desjardins Cooperative Group or the subsidiaries of the entities that comprise it but that are included in Desjardins Group's financial statements may be found under "Additional information required pursuant to the AMF's Decision No. 2021-FS-0091."

(1) Information presented as at March 31, 2026 takes into account the amendments to IFRS 9, "Financial Instruments," adopted as at January 1, 2026. Comparative data have not been restated. For more information, refer to Note 2, "Accounting policies," to the Interim Combined Financial Statements.

(2) Some data have been restated to conform with the current period's presentation.

(3) Represents the non-interest expense directly related to the fulfillment of insurance contracts presented under "Insurance service result."

(4) The breakdown by line item is presented in Note 11, "Segmented information," to the Interim Combined Financial Statements.

(5) For more information about non-GAAP financial measures and non-GAAP ratios, see "Non-GAAP and other financial measures" on pages 5 to 7.

(6) Including \$15 million from the caisses' Community Development Fund (\$25 million for the fourth quarter of 2025 and \$13 million for the first quarter of 2025).

(7) For further information about supplementary financial measures, see the Glossary on pages 47 to 52.

(8) On-balance sheet CSM of \$2,599 million (\$2,599 million as at December 31, 2025 and \$2,826 million as at March 31, 2025) presented net of reinsurance in the amount of \$208 million (\$214 million as at December 31, 2025 and \$248 million as at March 31, 2025). Included in the line items "Insurance contract liabilities" and "Reinsurance contract assets (liabilities)" on the Combined Balance Sheets. For more information, see Note 7, "Insurance and reinsurance contracts," to the Interim Combined Financial Statements.

(9) In accordance with the *Capital Adequacy Guideline* issued by the AMF for financial services cooperatives in particular; see the "Capital management" section.

(10) In accordance with the *Total Loss Absorbing Capacity Guideline* ("TLAC Guideline") issued by the AMF and based on risk-weighted assets and exposures for purposes of the leverage ratio at the level of the resolution group, which is deemed to be Desjardins Group, excluding Caisse Desjardins Ontario Credit Union Inc., see the "Capital management" section.

(11) In accordance with the *Liquidity Adequacy Guideline* issued by the AMF, see the "Risk management" section.

SIGNIFICANT EVENT

Acquisition of Guardian Capital Group Limited

On March 23, 2026, Desjardins Group, through Desjardins Global Asset Management Inc. (DGAM), an indirect subsidiary of the Federation, completed the acquisition of all the outstanding shares of Guardian Capital Group Limited (Guardian), a publicly traded global investment management company that serves institutional, retail and private clients. This acquisition increases Desjardins Group's assets under management, strengthens its presence on the Canadian asset management market and supports its international development. The results of these operations will be recognized under the Wealth Management and Life and Health Insurance segment. For the first quarter ended March 31, 2026, this acquisition had no significant impact on Desjardins Group's financial results.

ECONOMIC ENVIRONMENT AND OUTLOOK

Global economy

The outlook for the global economy was generally positive during the first few months of 2026. The indicators for most major economies pointed to continued, but relatively slow, growth. The U.S. Supreme Court struck down the country's reciprocal tariffs, and the lower, temporary tariff that replaced them could even help countries with considerable exports to the U.S., and stabilize global trade. However, this relatively stable situation has been disrupted by the crisis gripping the Middle East. The conflict in Iran and escalating regional tensions triggered the largest oil supply shock in recent history, causing a sudden contraction in global production. These disruptions quickly drove up energy prices worldwide. Even though the global economy has become less dependent on oil over the past few decades, the shock has nonetheless led to a downward revision of real GDP growth forecasts in the major economies overseas. The situation is even more concerning in Asia, where several economies remain heavily reliant on hydrocarbon imports from the Middle East. Global real GDP grew by 3.2% in 2025 and is projected to rise 3.0% in 2026 and 3.2% in 2027. Inflation, which had generally been falling almost everywhere, is already on the rise, at least for now.

United States

After two quarters of annualized real GDP growth approaching 4%, the gain of just 0.7% at the end of 2025 came as a disappointment. Consumption, investment and net exports were all lower than expected, but the main drag on the economy stemmed from a decline in public spending caused by the budget deadlock. There was stronger growth in the first quarter of 2026, at 2%, following the recovery in federal spending and a new boost in artificial intelligence investments. Furthermore, the fiscal measures in the *One Big Beautiful Bill Act*, passed in the summer of 2025, are also supporting growth. The fallout of the war in Iran emerged as early as the end of the first quarter, notably in a dramatic surge in oil prices. Such high prices are likely to either limit growth in other types of spending or erode savings. We project consumption and real GDP to slow in the second quarter, although we are not expecting a contraction. Weaker confidence and high uncertainty could weigh on businesses and their investments. However, we expect growth in investments linked to oil and gas extraction. At the same time, investments in artificial intelligence will continue to underpin non-residential investment in the short-term. Job creation should remain moderate. Rising energy prices will inevitably lead to higher inflation, which is expected to remain above 3% for a few quarters, and U.S. real GDP should grow 2.0% in 2026.

Canada

Canadian real GDP growth in the fourth quarter of 2025 fell short of expectations, mainly due to a significant negative inventory effect, despite sustained domestic demand. Growth is likely to have rallied in the first quarter of 2026. Consumption should continue to increase, despite the weak employment data at the start of the quarter, while private investment is expected to have recovered due to strong residential construction. Government capital expenditure is also expected to have supported real GDP growth in the first quarter of 2026, with investments in defence reaching unprecedented levels. The conflict in the Middle East led to an increase in oil prices at the end of the first quarter of 2026, and this should have a slightly positive net effect on Canadian real GDP. As a result, forecasts for the Canadian economy have been revised slightly upwards starting in the second quarter of 2026, largely due to increased investment in the energy sector and growing exports. Nevertheless, inflation should accelerate across the country, particularly in the first half of 2026. Ultimately, Canadian real GDP could grow by 1.4% in 2026.

Quebec

Quebec's economy slowed throughout 2025. The start of 2026 brought further cause for concern, including sharp drops in employment in February and in April. The trade dispute continues to weigh on several sectors, while the recent surge in oil prices has placed additional pressure on the province's consumers. In recent months, the slowdown has spread to a wider range of industries, signalling a broader weakening of economic activity. Demographics and fiscal consolidation, particularly at the provincial level, will also pose significant headwinds. However, some supportive factors remain, including infrastructure projects and a still-robust housing market. Overall, we anticipate limited growth in 2026, at around 0.8%, and an unemployment rate fluctuating between 5% and 6%.

REVIEW OF FINANCIAL RESULTS

ANALYSIS OF RESULTS

SURPLUS EARNINGS

Comparison of the first quarters of 2026 and 2025

For the first quarter ended March 31, 2026, Desjardins Group recorded surplus earnings before member dividends of \$960 million, up \$222 million, or 30.1%, compared to the same period of 2025. Total net revenue rose by 11.4%, driven in particular by the performance of the Personal and Business Services segment, which benefited from higher net interest income, mainly tied to business growth. The Property and Casualty Insurance segment recorded higher income from automobile and property insurance. As for the Wealth Management and Life and Health Insurance segment, growth in its other income linked to assets under management and under administration was offset by a decrease in net insurance service income.

As a cooperative financial group contributing to the development of communities, Desjardins Group gives its members and clients the support they need to be financially empowered, a mission it continued to carry out in the first quarter of 2026.

- **A total of \$182 million was returned to members and the community⁽¹⁾**, compared to \$139 million in the first quarter of 2025.
 - The provision for member dividends totalled \$151 million for the quarter ended March 31, 2026, up \$38 million from the corresponding quarter of 2025.
 - An amount of \$31 million was returned in the form of sponsorships, donations and scholarships, compared to \$26 million in the same period last year, including \$15 million in the first quarter of 2026 and \$13 million in the first quarter of 2025 from the caisses' Community Development Fund.
- **Return on equity was 9.1%**, up from 7.8% recorded for the quarter ended March 31, 2025, mainly due to the increase in surplus earnings, as previously explained.

The following table presents the calculation of return on equity.

Return on equity

(in millions of dollars and as a percentage)	For the three-month periods ended		
	March 31, 2026	December 31, 2025	March 31, 2025
Surplus earnings before member dividends	\$ 960	\$ 1,058	\$ 738
Non-controlling interests' share	(17)	(40)	(5)
Group's share before member dividends	\$ 943	\$ 1,018	\$ 733
Average equity – Group's share	\$ 41,993	\$ 41,501	\$ 38,301
Return on equity⁽¹⁾⁽²⁾	9.1%	9.7%	7.8%

⁽¹⁾ For further information about supplementary financial measures, see the Glossary on pages 47 to 52.

⁽²⁾ Corresponds to an annualized calculation that takes into account the number of days in the period concerned.

TOTAL NET REVENUE

Comparison of the first quarters of 2026 and 2025

For the first quarter of 2026, **total net revenue amounted to \$4,101 million**, up \$419 million, or 11.4%, compared to that recorded for the same period in 2025.

NET INTEREST INCOME

Comparison of the first quarters of 2026 and 2025

Net interest income totalled \$2,187 million, up \$220 million, or 11.2%. This increase was due to growth in average residential mortgages and business loans outstanding. The net interest margin⁽²⁾ was 2.34%, compared to 2.29% for the corresponding period of 2025. This growth was due to higher revenues from loans combined with a lower cost of funding.

⁽¹⁾ For more information on non-GAAP financial measures, see "Non-GAAP and other financial measures" on pages 5 to 7.

⁽²⁾ For more information on non-GAAP ratios, see "Non-GAAP and other financial measures" on pages 5 to 7.

NET INSURANCE SERVICE INCOME[Comparison of the first quarters of 2026 and 2025](#)

Net insurance service income stood at \$534 million⁽¹⁾, up \$70 million, or 15.1%, compared to the first quarter of 2025. The change in this heading, which consists of the insurance service result and the net insurance finance result, was due to items from the following segments:

Wealth Management and Life and Health Insurance segment

- Insurance service result of \$136 million, down \$49 million, or 26.5%, mainly due to a less favourable experience in disability insurance.
- Net insurance finance result of \$40 million, down \$36 million, or 47.4%, primarily due to developments in the markets.

Property and Casualty Insurance segment

- Insurance service result of \$234 million, compared to \$102 million for the corresponding period of 2025, due to the following:
 - Higher insurance revenue, mainly due to growth in automobile and property insurance premiums.
 - Decrease in insurance service expenses due to a less unfavourable impact of the loss component on onerous contracts.
- Net insurance finance result of \$88 million, up \$24 million, or 37.5%, due to more favourable results related to developments in the financial markets.

OTHER INCOME[Comparison of the first quarters of 2026 and 2025](#)

Other income stood at \$1,380 million, up \$129 million, or 10.3%, compared to the first quarter of 2025, due to the following:

- Increase in income related to growth in assets under management and under administration.
- Higher foreign exchange income due to fluctuations in the value of foreign exchange contracts.
- Increase in business volumes in credit card payment activities.

PROVISION FOR CREDIT LOSSES[Comparison of the first quarters of 2026 and 2025](#)

The provision for credit losses was \$212 million, compared to \$210 million for the corresponding period of 2025. This \$2 million increase was due to the following:

- Increase in the provision related to credit-impaired loans, mainly in the business loan portfolios.
- Decrease in the provision related to non-credit impaired loans, due to a less unfavourable migration in credit quality in the consumer loan portfolio, including credit cards, offset by a deteriorating economic outlook for the business loan portfolio stemming from developments in the global geopolitical environment. It should be recalled that the provision for the corresponding period in 2025 reflected an unfavourable change in the economic outlook, related in particular to the imposition of customs tariffs.

Desjardins has continued to present a quality loan portfolio in 2026.

- Credit loss provisioning rate of 0.27% for the first quarter of 2026, a rate comparable to that for the corresponding period in 2025.
- Ratio of gross credit-impaired loans, as a percentage of the total gross loans portfolio, of 0.86%, compared to 0.83% as at March 31, 2025.

The following table presents the calculation of the credit loss provisioning rate.

Credit loss provisioning rate

(in millions of dollars and as a percentage)	For the three-month periods ended		
	March 31, 2026	December 31, 2025	March 31, 2025
Total provision for credit losses	\$ 212	\$ 163	\$ 210
Provision for credit losses on securities	1	10	7
Provision for credit losses on loans and off-balance sheet items	\$ 211	\$ 153	\$ 203
Average gross loans⁽¹⁾	\$ 318,175	\$ 314,929	\$ 294,324
Credit loss provisioning rate⁽¹⁾⁽²⁾	0.27%	0.19%	0.28%

⁽¹⁾ For further information on supplementary financial measures, see the Glossary on pages 47 to 52.

⁽²⁾ Corresponds to an annualized calculation that takes into account the number of days in the period concerned.

⁽¹⁾ The difference between this result and the sum total of the segment results relates to intersegment transactions, which are eliminated in the Other category.

GROSS NON-INTEREST EXPENSE

[Comparison of the first quarters of 2026 and 2025](#)

Gross non-interest expense totalled \$2,877 million, up \$141 million, or 5.2%, from the first quarter of 2025, due to the following:

- Increased spending on personnel, including wage indexation.
- Higher commission fees due to growth in assets under management and under administration.
- Increased spending on technology.

INCOME TAXES ON SURPLUS EARNINGS

[Comparison of the first quarters of 2026 and 2025](#)

Income taxes on surplus earnings after member dividends of \$271 million, up \$69 million, compared to the first quarter of 2025 due to the increase in surplus earnings.

- Effective tax rate on surplus earnings after member dividends⁽¹⁾ of 24.2% for the quarter ended March 31, 2026, comparable to an effective tax rate of 23.6% for the corresponding period in 2025.

RESULTS BY BUSINESS SEGMENT

Desjardins Group's financial reporting is organized by business segments, which are defined based on the needs of members and clients and the markets in which Desjardins operates, and on its internal management structure. Desjardins Group's financial results are divided into the following three business segments: Personal and Business Services, Wealth Management and Life and Health Insurance, and Property and Casualty Insurance. In addition to these three segments, there is the Other category. This section presents an analysis of the results for each of these segments.

Additional information on these business segments, particularly their profile, operations, 2025 achievements and industry in which they operate, can be found on pages 24 to 35 of Desjardins Group's 2025 annual MD&A.

Personal and Business Services

The Personal and Business Services segment is central to Desjardins Group's operations. With its comprehensive, integrated line of products and services designed to meet the needs of individual and business members, institutions, non-profit organizations and cooperatives, Desjardins Group is a leader in financial services in Quebec and is present on the financial services scene across Canada.

Desjardins's offer includes everyday financial management, savings products, payment services, financing, specialized services, access to capital markets, risk and development capital, business ownership transfers and advisory services, and through its distribution network, life and health insurance and property and casualty insurance products.

In addition, members and clients know that they can rely on the largest advisory force in Quebec, made up of dedicated professionals who are there for them at every stage in their life or entrepreneurial journey.

To meet the constantly changing needs of its members and clients, Desjardins Group offers its services through the caisse network and the Desjardins Business centres, in person, by phone, online, via applications for mobile devices, and at ATMs.

⁽¹⁾ For further information about supplementary financial measures, see the Glossary on pages 47 to 52.

Credit loss provisioning rate ⁽²⁾	0.28	0.20	0.29

⁽¹⁾ Changes have been made to the model used to allocate net interest income between segments. For the three-month periods ended December 31, 2025 and March 31, 2025, these changes would have resulted in an increase of \$31 million and \$85 million, respectively, in "Net interest income" and a decline of \$62 million and \$18 million, respectively, in "Other income" – Personal and Business Services, with a corresponding opposite impact in the same line items within the Other segment. No comparative data have been restated.

⁽²⁾ For further information about supplementary financial measures, see the Glossary on pages 47 to 52.

⁽³⁾ For more information about non-GAAP financial measures and non-GAAP ratios, see "Non-GAAP and other financial measures" on pages 5 to 7.

Comparison of the first quarters of 2026 and 2025

Surplus earnings before member dividends stood at \$607 million, up \$208 million compared to the same period in 2025, due to the following:

- **Total net revenue of \$2,797 million**, up \$309 million, or 12.4%.
 - **Net interest income of \$2,114 million**, up \$296 million, or 16.3%. This increase was primarily due to:
 - Growth in average residential mortgages and business loans outstanding.
 - An improved net interest margin, which stood at 2.83%, compared to 2.59% for the corresponding period of 2025. This increase was mainly due to loans renewed at higher rates, combined with a lower cost of funding.
 - **Other income totalled \$683 million**, up \$13 million, or 1.9%, mainly due to growth in business volumes in credit card payment activities.
- **Provision for credit losses of \$210 million**, compared to \$201 million for the corresponding period of 2025. This \$9 million increase was due to the following:
 - Increase in the provision related to credit-impaired loans, mainly in the business loan portfolios.
 - Decrease in the provision related to non-credit impaired loans, due to a less unfavourable migration in credit quality in the consumer loan portfolio, including credit cards, offset by a deteriorating economic outlook for the business loan portfolio stemming from developments in the global geopolitical environment. It should be recalled that the provision for the corresponding period in 2025 reflected an unfavourable change in the economic outlook, related in particular to the imposition of customs tariffs.
- **Gross non-interest expense of \$1,774 million**, up slightly by \$22 million, or 1.3%, mainly as a result of an increase in spending on personnel, including wage indexation. Non-interest expense rose moderately, reflecting efforts made on expenditure management.
- **Productivity index of 63.4%**, compared to 70.4% for the first quarter of 2025, mainly due to growth in total net income that outstripped the growth in gross non-interest expense.

Wealth Management and Life and Health Insurance

The Wealth Management and Life and Health Insurance segment plays a leading role in supporting members and clients in becoming financially empowered, and helping them to save and invest according to their plans and objectives as well as protect themselves and their loved ones through a range of high-quality products and services.

The segment supports members and clients, individuals and businesses through various distribution networks and designs several lines of individual insurance (life and health) coverage as well as investment solutions. The segment also includes asset management and trust services. The Wealth Management and Life and Health Insurance segment is a Canadian leader in responsible investing and responsible insurance.

The Wealth Management and Life and Health Insurance segment's vast and diversified Canada-wide distribution networks are one of its greatest strengths:

- Desjardins caisse network.
- Desjardins specialized networks (Signature Service, Private Wealth Management, Securities and Online Brokerage).
- Desjardins agent network.
- Desjardins Financial Security Life Assurance Company partner networks (SFL Wealth Management, Desjardins Financial Security Independent Network and Desjardins Financial Security Investments).
- Insurance and investment solution networks (including subsidiaries of Worldsource Group of Companies Inc.).
- Actuarial consulting firms and brokers.
- Client Relations Centres and digital channels.

Since March 23, 2026, the Wealth Management and Life and Health Insurance segment also includes operations resulting from Desjardins's acquisition of Guardian, a publicly traded global investment management company that serves institutional, retail and private clients. This acquisition has increased the assets under management of Desjardins Group, strengthening its presence in the Canadian asset management market and supporting its international development. For the first quarter ended March 31, 2026, this acquisition had no significant impact on the segment's financial results.

⁽¹⁾ Represents the non-interest expense directly related to the fulfillment of insurance contracts presented under "Insurance service result."

⁽²⁾ Included under "Insurance contract liabilities" and "Reinsurance contract assets (liabilities)" in the Combined Balance Sheets. For further information, see Note 7, "Insurance and reinsurance contracts," to the Interim Combined Financial Statements.

⁽³⁾ On-balance sheet CSM of \$2,599 million (\$2,599 million as at December 31, 2025 and \$2,826 million as at March 31, 2025) presented net of reinsurance for an amount of \$208 million (\$214 million as at December 31, 2025 and \$248 million as at March 31, 2025).

⁽⁴⁾ CSM on new insurance business for the period totalling \$23 million (\$22 million for the fourth quarter of 2025 and \$17 million for the first quarter of 2025) presented net of reinsurance for an amount of \$(2) million (\$(2) million for the fourth quarter of 2025 and \$(1) million for the first quarter of 2025).

⁽⁵⁾ Including \$(114) million in segregated funds (\$(84) million for the fourth quarter of 2025 and \$(78) million for the first quarter of 2025).

⁽⁶⁾ For further information about supplementary financial measures, see the Glossary on pages 47 to 52.

Comparison of the first quarters of 2026 and 2025

Net surplus earnings stood at \$130 million, down \$38 million compared to the first quarter of 2025. This decrease was due to the following:

- **Total net revenue of \$1,042 million**, up \$20 million, or 2.0%.
 - **Net interest income of \$81 million**, up \$12 million, or 17.4%, mainly due to business growth.
 - **Insurance service result of \$136 million**, down \$49 million, or 26.5%, mainly due to a less favourable experience in disability insurance.
 - **Net insurance finance result of \$40 million**, down \$36 million, or 47.4%, primarily due to developments in the markets.
 - **Other income of \$785 million**, up \$93 million, or 13.4%, primarily from the increase in assets under management and under administration due to business growth and developments in the markets.
- **Gross non-interest expense of \$957 million**, up \$79 million, or 9.0%. This increase was primarily due to the following:
 - Higher commissions as a result of growth in the volume of assets under management and under administration.
 - Increased spending on personnel.

Note that a gross non-interest expense of \$83 million was included under insurance service expenses, compared to \$76 million for the first quarter of 2025.

- **Additional information on the contractual service margin (CSM)**
 - Balance sheet CSM of \$2,391 million as at March 31, 2026, compared to \$2,385 million as at December 31, 2025. This growth in CSM was due to new sales, changes in estimates and finance expenses, partly offset by the effect of services rendered.

Property and Casualty Insurance

The Property and Casualty (P&C) Insurance segment offers insurance products providing coverage for the assets of Desjardins Group members and clients and guarding them against disaster. This segment includes the operations of Desjardins General Insurance Group Inc. and its subsidiaries, offering a personal line of automobile and property insurance products across Canada and also providing businesses with insurance products. Its products are offered in the Desjardins caisse network in Quebec and at Caisse Desjardins Ontario Credit Union Inc. and the Desjardins Business centres as well as the Business Services Centre, and are distributed through P&C insurance agents in a number of client care centres, as well as through an exclusive agent network, including over 400 agencies in Ontario, Alberta and New Brunswick. This exclusive agent network distributes P&C insurance and several other financial products. In addition, the insurance products offered by The Insurance Company of Prince Edward Island (ICPEI) are distributed by a network of independent brokers in Quebec, Ontario, New Brunswick, Alberta and Nova Scotia. The segment also offers advice and loss prevention services to members and clients to help them protect their assets and guard against the impact of weather and climate events. Members and clients also have access to a multitude of services online and via applications for mobile devices.

Desjardins General Insurance Group Inc., which has more than 3.8 million members and clients, markets its products to the Canada-wide individual and business market under the Desjardins Insurance banner; to the group market—including members of professional associations and unions, and employers' staff—under the The Personal banner; and through brokers under the ICPEI banner, a Desjardins subsidiary specialized in business insurance.

⁽⁴⁾ Undiscounted ratio, therefore excluding the effect of discounting net liabilities for claims incurred.

Comparison of the first quarters of 2026 and 2025

Net surplus earnings stood at \$154 million, up \$120 million, compared to the first quarter of 2025, due to the following:

- **Total net revenue of \$317 million**, compared to \$159 million in the corresponding period of 2025.
 - **Insurance service result of \$234 million**, compared to \$102 million for the first quarter of 2025.
 - **Insurance revenue of \$2,018 million**, up \$87 million, or 4.5%, mainly due to premium growth in automobile and property insurance.
 - **Insurance service expenses of \$1,781 million**, down \$9 million, or 0.5%. By including ceded insurance service expenses of \$97 million (\$57 million in the comparable period of 2025) presented under "Net reinsurance service income (expenses)," the decrease was \$49 million, or 2.8%, mainly due to the following:
 - Less unfavourable effect of the loss component on onerous contracts in automobile insurance.
 - More favourable developments in prior year claims, essentially due to property insurance.
 - Offset by higher current year claims, mainly in property insurance.
 - **Net insurance finance result of \$88 million**, up \$24 million, or 37.5%, due to more favourable results on standardized contracts. This increase was partly offset by the following:
 - Lower net gains on fixed income securities than in the corresponding quarter of 2025.
 - Higher net losses on shares than in the corresponding quarter of 2025.

- **Gross non-interest expense of \$295 million**, up \$19 million, or 6.9%, due to the following:

- Higher spending on personnel to support growth in operations.
- Increased spending on technology.

Note that a gross non-interest expense of \$185 million was included in insurance service expenses, compared to \$164 million for the first quarter of 2025.

Other category

The Other category includes financial information that is not specific to a business segment. It mainly includes treasury activities and the results for the support functions provided by the Federation to Desjardins Group as a whole, including: finance, including treasury; operations, including procurement; risk management, including compliance; the member and client experience, cooperation, culture, marketing, communications and human resources; the Project Management Office; the Desjardins Group Security Office; legal affairs and the Sustainable Development Office. It also includes all of Desjardins Group's IT operations. Non-interest expenses for support functions and Desjardins Group's IT operations are largely allocated to the various business segments.

The Other category also includes various adjustments required to prepare the Interim Combined Financial Statements and intersegment balance eliminations.

Other category

(in millions of dollars)	For the three-month periods ended		
	March 31, 2026	December 31, 2025 ⁽¹⁾	March 31, 2025 ⁽¹⁾
Net interest income	\$ (8)	\$ 61	\$ 80
Net insurance service income	36	(13)	37
Other income (loss)	(83)	(172)	(104)
Total net income (loss)	(55)	(124)	13
Net non-interest expense	(141)	(44)	(163)
Income taxes on surplus earnings	17	(69)	39
Net surplus earnings (deficit) for the period	\$ 69	\$ (11)	\$ 137

⁽¹⁾ Changes have been made to the model used to allocate net interest income between segments. For the three-month periods ended December 31, 2025 and March 31, 2025, these changes would have resulted in an increase of \$31 million and \$85 million, respectively, in "Net interest income" and a decline of \$62 million and \$18 million, respectively, in "Other income" – Personal and Business Services, with a corresponding opposite impact in the same line items within the Other segment. No comparative data have been restated.

Comparison of the first quarters of 2026 and 2025

- **Net surplus earnings of \$69 million**, down from net surplus earnings of \$137 million for the first quarter of 2025, which had benefited from a more favourable impact related to treasury activities and interest rate fluctuations in the markets. Due to the activities and intersegment balance eliminations in the Other category, we believe that the comparability of the two periods' results is limited.

SUMMARY OF INTERIM RESULTS

The table below presents a summary of data related to the results for Desjardins Group's most recent eight quarters.

Results for the previous eight quarters

(in millions of dollars)	2026	2025				2024

⁽¹⁾ The information presented as at March 31, 2026 reflects amendments to IFRS 9, "Financial Instruments", adopted as at January 1, 2026. Comparative information has not been restated. For more information, refer to Note 2, "Accounting policies," to the Interim Combined financial statements.

Assets

As at March 31, 2026, Desjardins Group's total assets stood at \$524.3 billion, up \$14.1 billion, or 2.8%, since December 31, 2025.

Desjardins Group's cash and deposits with financial institutions were up \$0.4 billion, or 7.6%, and securities, including securities borrowed or purchased under reverse repurchase agreements, rose \$5.4 billion, or 4.2%, reflecting liquidity management activities and resulting from the Guardian acquisition.

Desjardins Group's outstanding loan portfolio, net of the allowance for credit losses, increased \$4.1 billion, or 1.3%, primarily as a result of residential mortgage loans, which were up \$2.5 billion, or 1.3%. Business and government loans have climbed \$1.8 billion, or 2.0%, since the end of 2025. Consumer, credit card and other personal loans outstanding were comparable to their December 31, 2025 level.

Information on the quality of Desjardins Group's credit portfolio can be found in the "Risk management" section, on pages 29 to 31 of this MD&A.

Segregated fund net assets rose \$0.2 billion, or 0.6%, on account of growth in contract holders.

Derivative financial instrument assets were up \$0.5 billion, or 5.0%, owing primarily to financial market developments and the effect of exchange rate fluctuations.

Other assets rose \$3.4 billion, or 21.0%, mainly as a result of higher amounts receivable from clients, brokers and financial institutions, in addition to increased goodwill resulting from the Guardian acquisition.

Liabilities

Desjardins Group's total liabilities amounted to \$481.4 billion as at March 31, 2026, up \$13.5 billion, or 2.9%, since December 31, 2025.

Outstanding deposits grew \$4.6 billion, or 1.4%. Outstanding business and government deposits, which comprised 48.6% of Desjardins Group's total deposit portfolio, were largely responsible for this growth. These deposits outstanding were up \$4.4 billion, or 2.8%, owing primarily to the various securities issued in the Canadian, U.S. and international markets, and growth in business member and client deposits. Deposits from deposit institutions rose \$0.2 billion since the end of 2025. Personal deposits outstanding, which accounted for 51.2% of the total deposit portfolio, have remained stable compared to December 31, 2025.

Desjardins Group's insurance contract liabilities have remained comparable to those as at December 31, 2025.

Commitments related to securities sold short and lent or sold under repurchase agreements increased \$6.3 billion, or 19.7%, to a volume of \$38.1 billion.

Derivative financial instrument liabilities have risen \$0.2 billion, or 2.4%, since December 31, 2025, owing primarily to financial market developments.

Segregated fund net liabilities for investment contracts were up \$0.4 billion, or 1.2%, on account of growth in contract holders.

Other liabilities increased \$1.1 billion, or 4.0%, primarily due to an increase in amounts payable to clients, brokers and financial institutions.

Subordinated notes climbed \$1.0 billion, or 20.2%, owing to an issue of \$1.0 billion on March 3, 2026 in non-viability contingency capital (NVCC)-eligible subordinated notes. Moreover, on April 27, 2026, the Federation stated its intention to repurchase, on May 28, 2026, its NVCC subordinated notes amounting to \$1 billion and maturing on May 28, 2031.

Equity

Equity has increased \$0.6 billion, or 1.5%, since December 31, 2025 primarily due to net surplus earnings after member dividends totalling \$0.9 billion for the first three months of 2026.

Note 21, "Capital stock," and Note 22, "Share capital," to the Annual Combined Financial Statements provide additional information about Desjardins Group's capital stock and share capital.

CAPITAL MANAGEMENT

Capital management is crucial to the financial management of Desjardins Group with an objective to ensure the financial soundness and sustainability of the Desjardins Cooperative Group. To help safeguard a capital level and structure that maintains the confidence of members and clients and optimizes financial capital costs, the organization has a target capital structure that takes into account the banking industry regulatory requirements, Desjardins Group's objectives for maintaining its credit ratings and the risk profiles of the organization and its components. The target structure is subject to change and is updated annually by the Board of Directors of the Federation based on changes in the above factors. Additional information on the Integrated Capital Management Framework can be found in Section 3.2, "Capital management," of Desjardins Group's 2025 annual MD&A.

The current situation and the forecasts show that, overall, Desjardins Group has a solid capital base that allows it to continue to be one of the best-capitalized Canadian financial institutions and meet its targets.

Regulatory framework

Desjardins Group's regulatory capital ratios are calculated in accordance with the *Capital Adequacy Guideline* issued by the AMF and applicable, in particular, to financial services cooperatives. The Guideline takes into account the global regulatory framework for more resilient banks and banking systems (Basel III) issued by the Bank for International Settlements.

Under this framework, a minimum amount of capital must be maintained on a combined basis by all the Desjardins Group components. Some of these components are subject to separate requirements regarding regulatory capital, liquidity and funding, which are set by regulatory authorities governing trusts, credit unions, insurers and securities, among other things. Desjardins Group oversees and manages the capital requirements of these entities to ensure efficient use of capital and continuous compliance with the applicable regulations.

In this regard, it should be mentioned that the life and health insurance subsidiary under provincial jurisdiction is subject to the *Capital Adequacy Requirements Guideline – Life and Health Insurance* issued by the AMF. The property and casualty insurance subsidiaries under provincial jurisdiction must comply with the *Guideline on Capital Adequacy Requirements – Property and Casualty Insurance* issued by the AMF. The property and casualty insurance subsidiaries under federal jurisdiction must comply with the OSFI's *Minimum Capital Test – Guideline*.

For the purpose of calculating capital, Desjardins Financial Corporation Inc., the holding corporation that mainly includes the insurance companies, was deconsolidated and presented as a Desjardins Group partial capital deduction under the rules for significant investments stated in the *Capital Adequacy Guideline*. Desjardins Financial Corporation Inc. is subject to the AMF's *Capital Adequacy Requirements Guideline – Life and Health Insurance*.

In addition, Desjardins Group has been required to maintain a minimum loss absorbing capacity at all times in order to support its internal recapitalization (bail-in) in the event of failure. Such capacity is composed of regulatory capital instruments and unsecured external long-term debt that meets the criteria under the *Total Loss Absorbing Capacity Guideline* (TLAC Guideline) issued by the AMF.

The following table presents a summary of the minimum regulatory ratios set by the AMF under Basel III.

Summary of ratios regulated by the AMF under Basel III

(as a percentage)	Minimum ratio	Capital conservation buffer	Minimum ratio including capital conservation buffer	Supplement applying to D-SIFIs ⁽¹⁾⁽²⁾	Minimum ratio including capital conservation buffer and supplement applying to D-SIFIs	Capital and leverage ratios as at March 31, 2026
Tier 1A capital ratio ⁽³⁾	> 4.5%	2.5%	> 7.0%	1.0%	> 8.0%	23.2%
Tier 1 capital ratio ⁽³⁾	> 6.0	2.5	> 8.5	1.0	> 9.5	23.2
Total capital ratio ⁽³⁾	> 8.0	2.5	> 10.5	1.0	> 11.5	26.1
TLAC ratio ⁽⁴⁾	> 21.5	N/A	> 21.5	N/A	> 21.5	36.4
Leverage ratio ⁽⁵⁾	> 3.0	N/A	> 3.0	0.5	> 3.5	7.6
TLAC leverage ratio ⁽⁶⁾	> 6.75	N/A	> 6.75	N/A	> 6.75	11.7

⁽¹⁾ Supplement applicable to Desjardins Group as a domestic systemically important financial institution (D-SIFI).

⁽²⁾ At its discretion, the AMF may also set higher target ratios when warranted by circumstances. In this regard, the AMF could activate the countercyclical buffer when it considers that excess credit growth is associated with a build-up of system-wide risk. Based on this assessment, a countercyclical buffer requirement representing between 0% and 2.5% of total risk-weighted assets (RWA) will be put in place when circumstances warrant. This requirement will be lifted when the risk either crystallizes or dissipates.

⁽³⁾ The capital ratios are expressed as a percentage of regulatory capital to risk-weighted assets.

⁽⁴⁾ The TLAC ratio is expressed as a percentage of regulatory capital and TLAC-eligible instruments (as set out in the TLAC Guideline) compared to risk-weighted assets at the level of the resolution group, which is deemed to be Desjardins Group, excluding Caisse Desjardins Ontario Credit Union Inc.

⁽⁵⁾ The leverage ratio is calculated by dividing Tier 1 capital by the exposure measure, which is an independent measure of risk and includes: (1) on-balance sheet exposures, (2) securities financing transaction exposures, (3) derivative exposures, and (4) off-balance sheet items.

⁽⁶⁾ The TLAC leverage ratio is calculated by dividing the sum total of regulatory capital and TLAC-eligible instruments (as set out in the TLAC Guideline) by the exposure measure at the level of the resolution group.

Regulatory developments

Desjardins Group continues to monitor changes in capital requirements under the global standards developed by the Basel Committee on Banking Supervision (BCBS) and to assess their impact on the capital ratios and the leverage ratios. Additional information in this regard can be found in Desjardins Group's 2025 annual MD&A on page 42. The "Changes in the regulatory environment" section of this MD&A also presents additional details on regulation as it affects all Desjardins Group operations.

In January 2026, the AMF issued a revised revision of the *Capital Adequacy Guideline*. The proposed changes became effective on January 1, 2026 and no significant impacts have been noted.

Compliance with requirements

As at March 31, 2026, the Tier 1A, Tier 1 and total capital ratios of Desjardins Group, calculated in accordance with Basel III requirements, were 23.2%, 23.2% and 26.1%, respectively. The leverage ratio was 7.6%.

As at March 31, 2026, the Tier 1A capital ratio was down 51 basis points compared to December 31, 2025, essentially due to the Guardian acquisition, whose impact was offset in part by risk-weighted asset optimization initiatives.

In addition, the TLAC ratio and the TLAC leverage ratio were respectively 36.4% and 11.7% as at March 31, 2026.

Desjardins Group and all its components that are subject to minimum regulatory requirements with respect to capitalization were in compliance with said requirements as at March 31, 2026.

Regulatory capital and other TLAC instruments

The following tables present Desjardins Group's main capital components, regulatory capital balances and other TLAC instruments, as well as risk-weighted assets, regulatory ratios, and changes in regulatory capital and other TLAC instruments during the period.

Main capital components and other TLAC instruments

Regulatory capital and other TLAC instruments				
Total capital				
Tier 1 capital			Tier 2 capital	Other TLAC instruments
Tier 1A ⁽¹⁾	Tier 1B ⁽¹⁾			
Eligible items	<ul style="list-style-type: none"> Reserves and undistributed surplus earnings Eligible accumulated other comprehensive income F capital shares 	<ul style="list-style-type: none"> Non-controlling interests⁽²⁾ 	<ul style="list-style-type: none"> Eligible portion of allowance for credit losses NVCC subordinated notes⁽³⁾ Eligible qualifying shares 	<ul style="list-style-type: none"> TLAC senior notes
Deductions	<ul style="list-style-type: none"> Mainly significant investments in financial entities⁽⁴⁾ 	<ul style="list-style-type: none"> Investment in preferred shares of a component deconsolidated for regulatory capital purposes 	<ul style="list-style-type: none"> Investment in preferred shares of a component deconsolidated Subordinated financial instrument 	
Regulatory adjustments	<ul style="list-style-type: none"> Goodwill Software Other intangible assets Net defined benefit plan assets Deferred tax assets essentially resulting from loss carryforwards Provision deficit Gains and losses from fluctuations in the fair value of financial liabilities due to changes in the entity's credit risk Equity investments in investment funds subject to the fallback approach 			

⁽¹⁾ The Tier 1A and Tier 1B ratios are the equivalent of the financial institutions' CET1 (Common Equity Tier 1) and AT1 (Additional Tier 1) ratios for financial services cooperatives regulated by the AMF.

⁽²⁾ The amount of non-controlling interests is determined, in particular, based on the nature of the operations and the capitalization level of the investee.

⁽³⁾ These notes meet the Non-Viability Contingent Capital (NVCC) requirements of the Capital Adequacy Guideline. To be eligible, the notes must include a clause requiring the full and permanent conversion into a Tier 1A capital instrument at the point of non-viability.

⁽⁴⁾ Represent the portion of investments in the components deconsolidated for regulatory capital purposes (mainly Desjardins Financial Corporation Inc.) that exceeds 10% of capital, net of regulatory adjustments. In addition, when the non-deducted balance, plus deferred tax assets, net of corresponding deferred tax liabilities, exceeds 15% of the adjusted capital, the surplus is also deducted from this capital. The net non-deducted balance is subject to risk weighting at a rate of 250%.

Regulatory capital and other TLAC instruments

(in millions of dollars and as a percentage)	As at March 31, 2026	As at December 31, 2025

⁽¹⁾ Data calculated at the level of the resolution group, which is deemed to be Desjardins Group, excluding Caisse Desjardins Ontario Credit Union Inc.

The Federation is able to issue non-viability contingent capital (NVCC)-eligible instruments on Canadian, U.S. and international markets. As at March 31, 2026, the balance of outstanding eligible NVCC instruments totalled \$5.8 billion. Upon the occurrence of a trigger event as defined in the *Capital Adequacy Guideline*, these notes would automatically and immediately be converted into Tier 1A capital.

Moreover, on April 27, 2026, the Federation stated its intention to repurchase, on May 28, 2026, its NVCC subordinated notes amounting to \$1 billion and maturing on May 28, 2031 at a price equal to their par value, plus accrued and unpaid interest to May 28, 2026 exclusively.

Desjardins Group also issued TLAC-eligible debt to meet minimum requirements, for a total of \$15.2 billion as at March 31, 2026.

⁽¹⁾ Amount including the change in defined benefit pension plans.⁽²⁾ On January 23, 2026, the Federation redeemed for cancellation 10 million F capital shares held in the Trust Fund.⁽³⁾ No Tier 1B capital instrument has been issued to date.⁽⁴⁾ Data calculated at the level of the resolution group, which is deemed to be Desjardins Group, excluding Caisse Desjardins Ontario Credit Union Inc.**Risk-weighted assets (RWA)**

Desjardins Group calculates RWA for credit risk, market risk and operational risk.

Credit risk

- Desjardins uses the Internal Ratings-Based Approach for credit risk.
- This approach is used for retail exposures – Personal – as well as for most exposures in the asset classes consisting of sovereign borrowers, financial institutions, businesses and SMEs similar to other retail client exposures.
- The Standardized Approach is used to measure the credit risk of certain exposures related to components of lesser importance, as well as asset classes that are not significant in terms of amount and perceived risk profile.

Market risk

- Desjardins uses the standardized approach for the calculation of market risk RWA.

Operational risk

- Desjardins uses the Standardized Approach to calculate operational risk.

Desjardins is also subject to an RWA floor. When the RWA modelled are lower than the RWA calculated using the Standardized Approach multiplied by a factor set by the AMF, the difference is added to the denominator of the regulatory capital ratio, as specified in the AMF's *Capital Adequacy Guideline*.

Movements in risk-weighted assets

RWA totalled \$156.9 billion as at March 31, 2026, up \$3.2 billion compared to the previous quarter.

For credit risk, changes in RWA for the first quarter of 2026 are divided into two segments: credit risk other than counterparty risk, and counterparty risk.

- Credit risk other than counterparty risk reflected a net increase in RWA of \$1.5 billion.
- Counterparty risk reflected a net decrease in RWA of \$0.3 billion.

Market risk saw a net increase in RWA totalling \$1.5 billion. Operational risk also rose by \$0.5 billion.

Disclosure of systemically important financial institutions (SIFI) indicators

The rules for global systemically important financial institutions (G-SIFIs) are determined by the BCBS. The recommended G-SIFI assessment methodology is outlined in the document entitled, *Global systemically important banks: updated assessment methodology and the higher loss absorbency requirement*, issued by the BCBS in July 2018. In order to apply this assessment exercise to Quebec, the AMF issued a revision of the *Pillar 3 Disclosure Requirements Guideline* in January 2020. This version requires the public disclosure of the macro indicator table "Disclosure of SIFI indicators" for all deposit institutions with a Basel III leverage ratio exposure measure exceeding €200 billion and designated as SIFIs. This table contains 13 indicators used as a basis for the BCBS's assessment methodology to identify G-SIFIs. Based on the value of the indicators as well as the BCBS's and the AMF's prudential judgment, Desjardins Group could be designated as a G-SIFI. Given that the indicators are calculated using the specific methodology prescribed by the Basel Committee, the measures may not be comparable to other measures reported in this MD&A.

Disclosure of SIFI indicators⁽¹⁾

(in millions of dollars)

Category	Indicator	As at December 31, 2025	As at December 31, 2024
1 Cross-jurisdictional activity ⁽²⁾	Cross-jurisdictional claims	\$ 4,186	\$ 3,267
2	Cross-jurisdictional liabilities	39,383	37,035
3 Size ⁽³⁾	Total exposures ⁽⁴⁾	536,904	497,166
4 Interconnectedness ⁽⁵⁾	Intra-financial system assets ⁽⁴⁾	32,863	28,025
5	Intra-financial system liabilities ⁽⁴⁾	1,238	6,175
6	Securities outstanding (issued by Desjardins) ⁽⁴⁾	59,409	51,304
7 Substitutability / financial institution infrastructure ⁽⁶⁾	Assets under custody	412,787	376,827
8	Payment activities ⁽⁷⁾	1,775,642	1,617,994
9	Underwritten transactions in debt and equity markets	22,142	20,568

	Trading volume – fixed income	111,137	120,226
	Trading volume – equities and other securities	252,356	201,839
11 Complexity ⁽⁸⁾	Notional amount of over-the-counter (OTC) derivatives ⁽⁴⁾	664,407	598,563
12	Level 3 assets	6,167	5,732
13	Trading and available-for-sale securities ⁽⁴⁾	3,908	5,447

⁽¹⁾ Global systemically important indicators are prepared based on the methodology prescribed in the BCBS guidelines published in July 2018 and are calculated in accordance with the specific instructions updated each year by the BCBS.

⁽²⁾ Represents an institution's level of interaction outside Canada.

⁽³⁾ Represents the total on- and off-balance sheet exposures of the institution determined as per the AMF's Basel III leverage ratio rules before regulatory adjustments.

⁽⁴⁾ Including insurance operations.

⁽⁵⁾ Represents transactions with other financial institutions.

⁽⁶⁾ Represents the extent to which Desjardins Group's services could be substituted by those of other institutions.

⁽⁷⁾ Comparative data have been restated to conform with the presentation for the current year.

⁽⁸⁾ Includes the level of complexity and volume of an institution's trading activities represented through derivative financial instruments, trading securities, investment securities and Level 3 financial assets.

OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of operations, Desjardins Group enters into various off-balance sheet arrangements, including assets under management and under administration on behalf of its members and clients, credit instruments, guarantees and structured entities, including securitization. Additional information is included in Section 3.3, "Off-balance sheet arrangements," of Desjardins Group's 2025 annual MD&A.

Note 13, "Interests in other entities," and Note 27, "Commitments, guarantees and contingent liabilities," to Desjardins Group's Annual Combined Financial Statements contain information about structured entities, credit instruments and guarantees, while Note 8, "Derecognition of financial assets," to the Annual Combined Financial Statements provides information about the securitization of Desjardins Group's loans.

Assets under management and under administration

As at March 31, 2026, Desjardins Group administered, on behalf of its members and clients, assets totalling \$653.3 billion, for a decrease of \$3.0 billion, or 0.5%, since December 31, 2025. The decrease in assets under administration is mainly attributable to a volume decrease resulting from the investment policies of two major institutional clients. Financial assets entrusted to Desjardins Group as wealth manager amounted to \$284.4 billion as at March 31, 2026, up \$161.7 billion since December 31, 2025. The increase in assets under management resulted primarily from the increase in the number of clients following the acquisition of Guardian, as well as growth in the volume of assets managed.

Assets under management and under administration by Desjardins Group are composed essentially of financial assets in the form of investment funds, securities held in custody and assets accumulated by pension funds. They do not belong to Desjardins Group, but to its members and clients and, as a result, they are not recognized on the Combined Balance Sheets. The Wealth Management segment is primarily responsible for the activities related to assets under management and under administration.

RISK MANAGEMENT

RISK MANAGEMENT

Desjardins Group's objective in risk management is to optimize the risk-return trade-off by developing and applying integrated risk management strategies, frameworks, practices and procedures to all of the organization's business sectors and support functions. To this end, Desjardins developed an Integrated Risk Management Framework reflective of its business strategies and organizational risk-taking philosophy which is aimed, among other things, at giving its senior management and the Board of Directors of the Federation an appropriate level of confidence and comfort regarding the understanding and management of the risks associated with the achievement of its objectives, including risks related to external factors such as climate change.

Desjardins Group is exposed to different types of risk in the normal course of its operations, including credit risk, market risk, liquidity risk, operational risk, insurance risk, strategic risk, reputational risk, environmental, social and governance risk, and regulatory risk.

Strict and effective management of these risks is a priority for Desjardins Group, its purpose being to support its major orientations, particularly regarding its financial soundness as well as its sustained and profitable growth, while complying with regulatory requirements. Desjardins Group considers risk an inextricable part of its development, and consequently strives to promote a proactive approach in which each of its business segments, employees and managers is responsible for risk management.

In the first three months of fiscal 2026, Desjardins Group's governance structure, frameworks and practices for risk management, and the nature and description of the risks to which it is exposed (including operational risk, insurance risk, strategic risk, reputational risk, environmental, social risk and governance risk, and regulatory risk) did not change significantly from those described on pages 53 to 92 of Desjardins Group's 2025 annual MD&A. In addition to these types of risk, other risk factors, which are beyond Desjardins Group's control, could have an impact on its future results. These principal risks and emerging risks, as well as other risk factors, did not change significantly from those described on pages 49 to 52 of Desjardins Group's 2025 annual MD&A, except for the economic situation as specified in the "Economic environment and outlook" section of this MD&A. In addition, the following text is an update of the 2025 annual MD&A.

RISK FACTORS THAT COULD IMPACT FUTURE RESULTS

Economic and geopolitical uncertainty

U.S. trade policy remains in flux, notably with the recent U.S. Supreme Court decision striking down the IEEPA (International Emergency Economic Powers Act) reciprocal tariffs imposed by the U.S. President. While the impact on Canada remains uncertain, the many exemptions under the Canada-U.S.-Mexico Agreement (CUSMA) are limiting the impacts on the Canadian economy for now. With the expected review of CUSMA between now and July 2026, the uncertainty surrounding U.S. trade policy is once again becoming a major risk for Canada, with a particularly broad range of potential issues. In the worst-case scenario, the agreement would be scrapped, subjecting Canadian exports to wide-ranging punitive duties. On the other hand, if the agreement is renewed, and the current sectoral tariffs are lifted, North America would return to more of a free trade type of framework similar to what existed prior to the re-election of the current U.S. President. Our basic assumption is that the agreement will be reviewed, but that the current tariff conditions will be maintained.

Moreover, many geopolitical tensions are fuelling global instability and impacting markets. The conflict in the Middle East is still ongoing, and oil and gas prices remain exceptionally high, leading to accelerating inflation almost everywhere in the world. There is a risk that this conflict will continue for a long time, or that it will escalate into a wider war. Energy prices could rise even more and supply chains could face further disruption. Consumer, business and investor confidence could collapse, creating an economic environment characterized by weak growth--even a global recession--and much higher inflation. In these circumstances, Desjardins Group is monitoring and assessing developments to determine the appropriate course of action to mitigate any potential impact on its operations, members and clients.

CREDIT RISK

Credit risk is the risk of losses resulting from a borrower's or counterparty's failure to honour its contractual obligations, whether or not such obligations appear on the Combined Balance Sheets.

Desjardins Group is exposed to credit risk first through its direct personal, business and government loans. It is also exposed through various other commitments, including letters of credit and transactions involving derivative financial instruments as well as securities transactions.

The macroeconomic environment remains highly uncertain, in particular with respect to the evolution of trade relations with the United States, geopolitical tensions and the risk of a stock market correction. Therefore, management has to continue making particularly complex judgments to estimate the allowance for credit losses in such situation. Expert adjustments are applied to the measurement of the allowance for expected credit losses to take into account relevant risk factors related to the macroeconomic environment that are not reflected in models.

Desjardins Group continues to factor climate risks into its management practices, including those relating to credit risk. At this stage, the initial scenario analyses do not point to any significant impact on expected credit losses.

Quality of loan portfolio

As at March 31, 2026, in accordance with Note 5, "Loans and allowance for credit losses," to the Interim Combined Financial Statements, the loss allowance for expected credit losses on loans totalled \$1,479 million, and the loss allowance for off-balance-sheet items was \$120 million, for a total of \$1,599 million, up \$114 million, compared to December 31, 2025. This change reflects an unfavourable migration in credit quality and a deteriorating economic outlook due to unfavourable developments in the global economic context. For more information about the methodology and assumptions used to estimate the loss allowance for expected credit losses, please refer to Note 5, "Loans and allowance for credit losses," to the Interim Combined Financial Statements.

Gross credit-impaired loans outstanding are considered Stage 3 loans of the impairment model. The ratio of gross credit-impaired loans, as a percentage of the total gross loans portfolio, was 0.86% for the first quarter of 2026, compared to 0.85% as at December 31, 2025. The allowance for credit losses on credit-impaired loans totalled \$748 million as at March 31, 2026, resulting in a provisioning rate of 27.0% for credit-impaired loans.

The following table presents the aging of gross loans that are past due but not credit-impaired.

Gross loans past due but not credit-impaired⁽¹⁾

(in millions of dollars)	As at March 31, 2026			As at December 31, 2025		
	31 to 90 days	91 days or more	Total	31 to 90 days	91 days or more	Total
Residential mortgages	\$ 147	\$ 113	\$ 260	\$ 159	\$ 75	\$ 234
Consumer, credit card and other personal loans	190	25	215	157	26	183

(1) Represents all loans secured by a property with up to four units. Residential mortgages on properties with up to four units held outside of the caisse network in Quebec and Caisse Desjardins Ontario Credit Union Inc. totalled \$222 million as at March 31, 2026 (\$225 million as at December 31, 2025 and \$242 million as at March 31, 2025).

(2) Caisse Desjardins Ontario Credit Union Inc. is not legally subject to the AMF rules but is instead subject to the Financial Services Regulatory Authority of Ontario (FSRA) rules.

(3) Term mortgages and the amortized portion of home equity lines of credit for which Desjardins Group has a full or partial guarantee or insurance from a mortgage insurer (public or private) or a government.

(4) Conventional term mortgages including the conventional amortized portion of home equity lines of credit and amortized consumer loans secured by a property with up to four units.

(5) Unamortized portion of home equity lines of credit and consumer lines of credit secured by a property with up to four units.

(6) Represents the geographic areas of Canada other than Quebec and Ontario.

The following table presents Desjardins Group's residential mortgage portfolio by remaining amortization period.

Remaining amortization period for residential mortgages⁽¹⁾⁽²⁾

Caisse network in Quebec and Caisse Desjardins Ontario Credit Union Inc.⁽³⁾

(in millions of dollars in gross loans and as a percentage of the total by remaining amortization category)	Total amortized loans					
	As at March 31, 2026		As at December 31, 2025		As at March 31, 2025	
0 to 10 years	\$ 9,831	6.9%	\$ 9,758	6.9%	\$ 9,447	7.0%
10 to 20 years	47,290	33.4	46,317	32.9	44,279	33.0
20 to 25 years	68,882	48.6	69,725	49.6	69,230	51.6
25 to 30 years	14,328	10.1	13,199	9.4	8,276	6.2
30 to 35 years	138	0.1	133	0.1	163	0.1
35 years or more ⁽⁴⁾	1,262	0.9	1,522	1.1	2,889	2.1
All amortization periods	\$ 141,731	100.0%	\$ 140,654	100.0%	\$ 134,284	100.0%

⁽¹⁾ The caisse network's variable-rate mortgages represented 30.3% as at March 31, 2026 (29.1% as at December 31, 2025 and 25.0% as at March 31, 2025).

⁽²⁾ In accordance with Desjardins Group's internal practices, the remaining amortization period for residential mortgages is limited to 30 years. However, exceeding this 30-year maximum amortization is permitted in certain exceptional situations.

⁽³⁾ Caisse Desjardins Ontario Credit Union Inc. is not legally subject to the AMF rules but rather to the FSRA rules.

⁽⁴⁾ Negative amortization loans are included in the over 35 years category, which reflects the impact of interest rate hikes on the variable-rate mortgage portfolio.

International exposures

As at March 31, 2026, Desjardins Group credit risk exposures outside of Canada and the U.S. represented 2.0% of the total exposures.

Counterparty and issuer risk

Counterparty and issuer risk is a credit risk relative to different types of securities, derivative financial instrument and securities lending transactions.

The Risk Management Executive Division sets the maximum exposure for each counterparty and issuer based on quantitative and qualitative criteria. In addition, limits are set for certain financial instruments. The amounts are then allocated to different components based on their needs.

A large proportion of Desjardins Group's exposure is to the different levels of government in Canada, Quebec public and parapublic entities and major Canadian banks. For most of these counterparties and issuers, the credit rating is A- or higher. Apart from the U.S. sovereign debt holdings and commitments with major international banks, Desjardins Group's exposure to foreign entities is low.

MARKET RISK

Market risk refers to the risk of loss arising from changes in the fair value of financial instruments as a result of fluctuations in the parameters affecting this value, in particular, interest rates, exchange rates, credit spreads, equity prices and their volatility.

Desjardins Group is exposed to market risk through its trading activities, which result primarily from short-term transactions conducted with the intention of profiting from current price movements or to provide arbitrage revenue. Desjardins Group is also exposed to market risk through its non-trading activities, which group together mainly asset/liability management transactions in the course of its traditional banking activities as well as investment portfolios related to its insurance operations. Desjardins Group and its components have adopted policies that set out the principles, limits and procedures to use in managing market risk.

Link between market risk and the Combined Balance Sheets

The following table presents the link between the main Combined Balance Sheet data and the positions included in trading activities and non-trading activities. The principal market risks associated with non-trading activities are also indicated in the table.

⁽¹⁾ Trading activity positions for which the risk measure is Value at Risk (VaR).⁽²⁾ The amounts presented under trading activities take inter-company eliminations into account.⁽³⁾ Positions mainly related to non-trading banking activities and insurance activities.**Management of market risk related to trading activities – Value at Risk**

The market risk of trading portfolios is managed on a day-to-day basis under specific frameworks, which set out the risk factors that must be measured and the limit for each of these factors as well as the total. Tolerance limits are also provided for various stress testing. Compliance with these limits is monitored daily and a market risk dashboard is produced on a daily basis and reported to senior management. Any limit exceeded is immediately analyzed and the appropriate action is taken.

The main tool used to measure this risk is Value at Risk (VaR). VaR is an estimate of the potential loss over a certain period of time at a given confidence level. A Monte Carlo VaR is calculated daily on the trading portfolios, using a 99% confidence level and a holding horizon of one day. It is therefore reasonable to expect a loss exceeding the VaR figure once every 100 days. The calculation of VaR is based on historical data for a one-year interval.

The following table presents the aggregate VaR of trading activities. Equity price risk, foreign exchange risk and interest rate risk are the three market risk categories to which Desjardins Group is exposed. These risk factors are taken into account in measuring the market risk of the trading portfolio. They are reflected in the VaR table presented below. The definition of a trading portfolio meets the various criteria defined in the *Capital Adequacy Guideline* issued by the AMF.

Market risk measures for the trading portfolio

(in millions of dollars)	For the quarter ended March 31, 2026				For the quarters ended			
	As at March 31, 2026	March 31, 2026			December 31, 2025		March 31, 2025	
		Average	High	Low	As at December 31, 2025	Average	As at March 31, 2025	Average
Equities	\$ 0.6	\$ 0.6	\$ 1.1	\$ 0.4	\$ 0.4	\$ 0.5	\$ 0.4	\$ 0.4
Foreign exchange	0.7	0.6	1.2	0.2	0.6	0.5	0.9	0.6
Interest rate	6.5	4.5	6.5	2.0	1.7	4.5	6.1	5.6
Diversification effect ⁽¹⁾	(1.2)	(1.1)	N/A ⁽²⁾	N/A ⁽²⁾	(1.0)	(1.0)	(1.0)	(0.8)
Aggregate VaR	\$ 6.6	\$ 4.6	\$ 6.6	\$ 2.0	\$ 1.7	\$ 4.5	\$ 6.4	\$ 5.8

⁽¹⁾ Represents the risk reduction related to diversification, namely the difference between the sum of the VaR of the various market risks and the aggregate VaR.

⁽²⁾ The highs and lows of the various market risk categories can refer to different dates. It is not relevant to calculate a diversification effect.

The average of the trading portfolio's aggregate VaR was \$4.6 million for the quarter ended March 31, 2026, up \$0.1 million compared to the quarter ended December 31, 2025.

Aggregate VaR is an appropriate measure for a trading portfolio but must be interpreted by taking into account certain limits, in particular the following ones:

- This measure does not allow future losses to be predicted if actual market fluctuations differ markedly from those used to do the calculations.
- This measure is used to determine the potential losses for a one-day holding period, not the losses on positions that cannot be liquidated or hedged during this one-day period.
- This measure does not provide information on potential losses beyond the selected confidence level of 99%.

Given these limitations, the process of monitoring trading activities using VaR is supplemented by stress testing and by establishing limits in this regard.

Structural interest rate risk management

Desjardins Group is exposed to structural interest rate risk, which represents the potential impact of interest rate fluctuations on net interest income and the economic value of equity. This risk is the main component of market risk for Desjardins Group's traditional non-trading banking activities, such as accepting deposits and granting loans, as well as for its securities portfolios used for long-term investment purposes and as liquidity reserves.

Interest rate sensitivity is based on the earlier of the repricing or the maturity date of the assets, liabilities and derivative financial instruments used to manage structural interest rate risk. The situation presented reflects the position on the date indicated and can change significantly in subsequent quarters depending on the preferences of Desjardins Group members and clients, and the application of policies on structural interest rate risk management.

Some Combined Balance Sheet items are considered non-interest-rate-sensitive instruments, including investments in equities, non-performing loans, non-interest-bearing deposits, non-maturity deposits with an interest rate not referenced to a specific rate (such as the prime rate), and equity. As dictated in its policies, Desjardins Group's management practices are based on prudent assumptions with respect to the maturity profile used in its models to determine the interest rate sensitivity of such instruments.

In addition to the total sensitivity gap, the main structural interest rate risk factors are:

- Trend in interest rate level and volatility.
- Changes in the shape of the interest rate curve.
- Member and client behaviour in their choice of products.
- Financial intermediation margin.
- Optionality of the various financial products offered.

In order to mitigate these risk factors, sound and prudent management is applied to optimize net interest income while reducing the negative incidence of interest rate movements. The established policies describe the principles, limits and procedures that apply to structural interest rate risk management. Stress testing is used to measure the effect of different variables on changes in net interest income and the economic value of equity. These policies specify the structural interest rate risk factors, the risk measures selected, the risk tolerance levels and the management limits as well as the procedures in the event that limits are exceeded. Structural interest rate risk is assessed at the required frequency based on portfolio volatility (daily, monthly and quarterly).

The assumptions used in the stress testing are based on an analysis of historical data and on the effects of various interest rate environments on changes in such data. These assumptions concern changes in the structure of assets and liabilities, including modelling for non-maturity deposits, in member and client behaviour, and in pricing. Desjardins Group's Asset/Liability Committee is responsible for analyzing and approving the global matching strategy on a monthly basis while respecting the parameters defined in structural interest rate risk management policies.

The table below presents the potential impact before income taxes, with regard to structural interest rate risk management associated with banking activities, of a sudden and sustained 100-basis-point increase or decrease in interest rates on net interest income and the economic value of equity for Desjardins Group, assuming the balance sheet is stable and management takes no measures to mitigate risk.

Interest rate sensitivity (before income taxes)

(in millions of dollars)	As at March 31, 2026		As at December 31, 2025		As at March 31, 2025	
	Net interest income ⁽¹⁾	Economic value of equity ⁽²⁾	Net interest income ⁽¹⁾	Economic value of equity ⁽²⁾	Net interest income ⁽¹⁾	Economic value of equity ⁽²⁾
Impact of a 100-basis-point increase in interest rates	\$ 108	\$ (1,439)	\$ 167	\$ (1,200)	\$ (23)	\$ (1,409)
Impact of a 100-basis-point decrease in interest rates	(70)	1,409	(136)	1,163	61	1,268

⁽¹⁾ Represents the interest rate sensitivity of net interest income for the next 12 months.

⁽²⁾ Represents the sensitivity of the present value of assets, liabilities and off-balance sheet instruments.

LIQUIDITY RISK

Liquidity risk refers to Desjardins Group's capacity to raise the necessary funds (by increasing liabilities or converting assets) to meet a financial obligation, whether or not it appears on the Combined Balance Sheets.

Desjardins Group manages liquidity risk in order to ensure that it has timely and cost-effective access to the funds needed to meet its financial obligations as they become due, in both routine and crisis situations. Managing this risk involves maintaining a sufficient level of liquid securities, ensuring stable and diversified sources of funding, monitoring indicators and having a contingency plan in the event of a liquidity crisis.

Liquidity risk management is a key component of the overall risk management strategy. Desjardins Group has established policies describing the principles, limits, risk appetite thresholds as well as the procedures that apply to liquidity risk management. These policies are reviewed on a regular basis to ensure that they are appropriate for the operating environment and prevailing market conditions. They are also updated to reflect regulatory requirements and sound liquidity risk management practices. Given that the insurance companies are subject to specific regulatory requirements, they manage their liquidity risks based on their own needs while following Desjardins Group guidelines. The securities held by these components are not taken into account in the valuation of Desjardins Group's liquidity reserves.

Desjardins Group's Treasury ensures stable and diversified sources of institutional funding by type, source and maturity. It uses a wide range of financial products and borrowing programs on various markets for its funding needs. Through these operations, the funding needs of Desjardins Group components can be satisfied under conditions comparable to those offered on financial markets.

Furthermore, Desjardins Group issues covered bonds and securitizes loans insured by Canada Mortgage and Housing Corporation (CMHC) in the course of its day-to-day operations. Desjardins Group is also eligible for the Bank of Canada's various intervention programs and loan facilities for Emergency Lending Assistance advances.

The implementation of Basel III strengthens international minimum liquidity requirements through the application of a liquidity coverage ratio (LCR), a net stable funding ratio (NSFR) and the use of Net Cumulative Cash Flow (NCCF). Under its liquidity risk management policy, Desjardins Group already produces and regularly reports on these ratios to the AMF.

The AMF has revised its *Liquidity Adequacy Guideline*. The revised version came into effect on January 1, 2026. This revised Guideline raises expectations for producing, documenting and communicating liquidity information, including intraday liquidity, in keeping with Basel III standards. These adjustments did not have a significant impact on our liquidity ratios and practices.

Liquidity risk measurement and monitoring

Desjardins Group determines its liquidity needs by reviewing its current operations and evaluating its future forecasts for balance sheet growth and institutional funding conditions. Various analyses are used to determine the actual liquidity levels of assets and the stability of liabilities based on observed behaviours or contractual maturities. Maintaining liquidity reserves of high-quality assets is required to offset potential cash outflows following a disruption in financial markets, or events that would restrict its access to funding or result in a serious run on deposits.

The minimum liquid asset levels to be maintained by Desjardins Group are specifically prescribed by policies. Daily management of these securities and the reserve level to be maintained is centralized at Desjardins Group Treasury and is subject to monitoring by the Risk Management function under the supervision of the Desjardins Group Finance and Risk Management Committee. Securities eligible for liquidity reserves must meet high security and negotiability criteria and provide assurance of their adequacy in the event of a severe liquidity crisis.

In addition to complying with regulatory ratios, a Desjardins-wide stress testing program has been set up. This program incorporates the concepts put forward by the BCBS in *Basel III: International Framework for Liquidity Risk Measurement, Standards and Monitoring*. The scenarios make it possible to:

- measure the extent of potential cash outflows in a crisis situation;
- implement liquidity ratios and levels to be maintained across Desjardins Group;
- assess the potential marginal cost of such events, depending on the type, severity and level of the crisis.

Liquidity risk indicators

The purpose of monitoring liquidity indicators daily is to quickly identify a lack of liquidity, whether potential or real, within Desjardins Group and on financial markets. Warning levels subject to an escalation process are established for each of these indicators. If one or more indicators trigger a warning level, the relevant senior executives are alerted, depending on the nature of the incident. The senior executives would act as plan owners should the contingency plan be put into action.

This plan lists the sources of liquidity available in exceptional situations. In addition, it lays down the decision-making and information process. The aim of the plan is to allow quick and effective intervention in order to minimize disruptions caused by sudden changes in member and client behaviour and potential disruptions in capital markets or economic conditions. Furthermore, in the event of a crisis extensive enough to question Desjardins Group's creditworthiness, a living will has been prepared to enable those responsible to draw on a broader range of liquidity sources to deal with the situation.

Liquid assets

The following tables present a summary of Desjardins Group's liquid assets, which do not include assets held by the insurance subsidiaries because those assets are committed to covering insurance liabilities and not the liquidity needs of Desjardins Group's other components. Liquid assets constitute Desjardins Group's primary liquidity reserve for all its operations. Encumbered liquid assets mainly include liquid assets that are pledged as collateral or cannot be used due to regulatory, legal, operational or other restrictions.

Liquid assets⁽¹⁾

As at March 31, 2026

				Pledged as collateral	Other ⁽¹⁾	Available as collateral ⁽³⁾	Other ⁽²⁾⁽³⁾
Cash and deposits with financial institutions	\$ 5,848	\$ —	\$ 5,848	\$ 202	\$ 675	\$ 4,170	\$ 801
Securities	105,677	32,180	137,857	42,339	1,091	57,081	37,346
Securities borrowed or purchased under reverse repurchase agreements	22,809	—	22,809	—	—	—	22,809
Loans, net of allowance for credit losses ⁽³⁾	314,703	—	314,703	46,300	—	83,876	184,527
Segregated fund net assets	34,079	—	34,079	—	—	—	34,079
Other assets	27,126	—	27,126	—	—	—	27,126
Total	\$ 510,242	\$ 32,180	\$ 542,422	\$ 88,841	\$ 1,766	\$ 145,127	\$ 306,688

⁽¹⁾ Assets that cannot be used for legal or other reasons.

⁽²⁾ "Other" unencumbered assets include those of the insurance companies as well as other assets that in management's opinion would not be immediately available for collateral or funding purposes in their current form. Some of these other assets could eventually be assigned to the central bank as collateral.

⁽³⁾ Comparative figures have been restated to conform with the presentation for the current year due to a more refined methodology.

Liquidity coverage ratio

The liquidity coverage ratio (LCR) was developed by the BCBS to promote the short-term resilience of the liquidity risk profile of financial institutions, and incorporated into the *Liquidity Adequacy Guideline* issued by the AMF. The LCR is the ratio of a stock of unencumbered high-quality liquid assets to net cash outflows over the next 30 days in the event of an acute liquidity stress scenario.

Under the AMF's *Liquidity Adequacy Guideline*, high-quality liquid assets qualifying for the purpose of calculating the LCR consist of assets that can be converted quickly into cash at little or no loss of value on financial markets. For Desjardins Group, such high-quality liquid assets are comprised primarily of cash and highly rated securities issued or guaranteed by various levels of government. This guideline also prescribes weightings for cash inflows and outflows.

The AMF stipulates that this ratio is not to be less than the minimum requirements of 100% in the absence of stressed conditions. This ratio is proactively managed by Desjardins Group's Treasury, and an appropriate level of high-quality liquid assets is maintained for adequate coverage of the theoretical cash outflows associated with the standardized crisis scenario within the Basel III framework. Desjardins Group's main sources of theoretical cash outflows are a potential serious run on member and client deposits and a sudden drying-up of the short-term institutional funding sources used on a day-to-day basis by Desjardins Group.

The table below presents quantitative information regarding the LCR, based on the template recommended in the AMF's *Liquidity Adequacy Guideline* for disclosure requirements.

Liquidity coverage ratio⁽¹⁾

	For the quarter ended March 31, 2026		For the quarter ended December 31, 2025
	Total non-weighted value ⁽²⁾ (average ⁽³⁾)	Total weighted value ⁽⁴⁾ (average ⁽³⁾)	Total weighted value ⁽⁴⁾ (average ⁽³⁾)
(in millions of dollars and as a percentage)			
High-quality liquid assets			
Total high-quality liquid assets	N/A	\$ 66,108	\$ 66,102
Cash outflows			
Retail deposits and small business deposits, including:	\$ 111,949	8,958	8,820
Stable deposits	51,847	1,555	1,573
Less stable deposits	60,102	7,403	7,247
Unsecured wholesale funding, including:	50,313	21,359	20,700
Operational deposits (all counterparties) and deposits in cooperative bank networks	17,820	4,323	4,560
Non-operational deposits (all counterparties)	25,840	10,383	9,771
Unsecured debt	6,653	6,653	6,369
Secured wholesale funding	N/A	253	201
Additional requirements, including:	28,144	5,877	6,009
Outflows related to exposures on derivatives and other collateral required	2,217	2,217	2,216
Outflows related to funding loss on debt products	289	289	414
Credit and liquidity facilities	25,638	3,371	3,379

Other contingent funding liabilities	99,125	2,678	2,703
Total cash outflows	N/A	\$ 40,483	\$ 40,106
Cash inflows			
Secured loans (e.g., reverse repurchase agreements)	\$ 22,798	\$ 802	\$ 848
Inflows related to completely effective exposures	4,070	2,035	1,884
Other cash inflows	60	60	74
Total cash inflows	\$ 26,928	\$ 2,897	\$ 2,806
		Total adjusted value⁽⁵⁾	Total adjusted value ⁽⁵⁾
Total high-quality liquid assets		\$ 66,108	\$ 66,102
Total net cash outflows		37,586	37,300
Liquidity coverage ratio		176%	178%

⁽¹⁾ Excluding the insurance subsidiaries.

⁽²⁾ The non-weighted values of cash inflows and outflows represent unpaid balances either maturing or falling due and payable within 30 days.

⁽³⁾ The ratio is presented based on the average daily data for the quarter.

⁽⁴⁾ Weighted values are calculated after the "haircuts" prescribed for high-quality liquid assets and the rates prescribed for cash inflows and outflows have been applied.

⁽⁵⁾ The total adjusted value takes into account, if applicable, the caps prescribed by the AMF for high-quality liquid assets and cash inflows.

Desjardins Group's average LCR was 176% for the quarter ended March 31, 2026, down slightly from the previous quarter. This ratio largely exceeds regulatory requirements. For the quarter ended March 31, 2026, the high quality liquid asset average was approximately \$66.1 billion, 95% of which was composed of Level 1 assets according to Basel III criteria. The situation therefore remains stable compared to December 31, 2025. These include, in particular, coins and banknotes, deposits with central banks, and securities issued or secured by sovereign issuers.

Net stable funding ratio

The net stable funding ratio (NSFR) was developed by the BCBS to promote the medium- and long-term resilience of the liquidity risk profile of financial institutions, and was incorporated into the AMF's *Liquidity Adequacy Guideline*. The NSFR requires financial institutions to maintain a stable funding and capitalization profile in relation to the composition of their assets and off-balance sheet activities. The NSFR limits overreliance on short-term wholesale funding, encourages better assessment of funding risk for all on- and off-balance sheet items, and promotes funding stability.

This ratio presents the amount of available stable funding (ASF) relative to the amount of required stable funding (RSF). The amount of ASF designates the portion of capital and liabilities considered stable over a one-year horizon. Liabilities with the longest contractual maturities are the most significant contributors to the increase in the ratio. The ASF is composed mainly of capital, retail and business deposits, as well as wholesale funding liabilities. The amount of RSF is measured based on the broad characteristics of the liquidity risk profile of assets and off-balance sheet exposures. The RSF is composed mainly of mortgages, other institutional loans and, to a lesser extent, other assets and off-balance-sheet items. The amounts of ASF and RSF are weighted to reflect the degree of stability of liabilities and the liquidity of assets. According to the AMF's *Liquidity Adequacy Guideline*, this ratio should be equal to at least 100% on an ongoing basis.

The table below presents quantitative information regarding the NSFR, based on the template recommended in the AMF's *Liquidity Adequacy Guideline* for disclosure requirements.

Net Stable Funding Ratio⁽¹⁾

(in millions of dollars and as a percentage)	As at March 31, 2026					As at

Assets posted as initial margin for derivative contracts and contributions to default funds of central counterparties ⁽²⁾	N/A			723	614	525
NSFR derivative assets ⁽²⁾	N/A			11,352	437	430
NSFR derivative liabilities before deduction of variation margin posted ⁽²⁾	N/A			8,751	—	—
All other assets not included in the above categories	—	1	1	17,787	17,789	13,711
Off-balance sheet items ⁽²⁾	N/A			119,501	3,141	3,201
Total RSF	N/A	N/A	N/A	N/A	\$ 223,379	\$ 215,967
Net Stable Funding Ratio	N/A	N/A	N/A	N/A	130%	132%

⁽¹⁾ Excluding the insurance subsidiaries.

⁽²⁾ The amounts in these lines include the categories of residual maturities of less than 6 months, 6 months to less than 1 year and 1 year or more.

For the quarter ended March 31, 2026, the NSFR ratio stood at 130%, down slightly from the previous quarter. This decrease is attributable to a more significant increase in the amount of stable funding required, notably relating to loan growth, which exceeded the increase in available stable funding. The ratio continues to largely exceed the regulatory requirements.

Sources of funding

Core funding, which includes capital, long-term liabilities and a diversified deposit portfolio, is the foundation upon which Desjardins Group's liquidity position depends. The solid base of deposits from individuals combined with wholesale funding, diversified in terms of both the programs used as well as the staggering of contractual maturities, allows Desjardins Group to maintain high regulatory liquidity ratios while ensuring their stability. Total deposits, including wholesale funding, presented on the Combined Balance Sheets amounted to \$334.1 billion as at March 31, 2026, up \$4.6 billion since December 31, 2025. Additional information on deposits is presented in the "Balance sheet management" section of this MD&A.

Funding programs and strategies

As Desjardins Group's treasurer, the Federation meets the needs of the organization's members and clients. Its first priority is to implement appropriate strategies to identify, measure and manage risks, and these strategies are regulated by policies. In the first three months of 2026, the Federation maintained a liquidity level sufficient to meet Desjardins Group's needs through its strict treasury policy, solid institutional funding and sustained growth in member and client savings during the period. Short-term wholesale funding is used to finance very liquid assets while long-term wholesale funding is mainly used to finance less liquid assets and to support reserves of liquid assets.

In order to secure long-term funding at the lowest cost on the market, the Federation maintains an active presence in the federally guaranteed mortgage loan securitization market under the *National Housing Act* (NHA) Mortgage-Backed Securities Program. In addition, to ensure stable funding, it diversifies its sources from institutional markets. It therefore resorts to the capital markets when conditions are favourable, and makes public and private issues of term notes on Canadian, U.S. and international markets, as required.

The main programs currently used by the Federation are as follows:

Main funding programs

As at March 31, 2026

	Maximum authorized amount
Short-term notes (U.S.)	US\$20 billion
Short-term notes (multi-currency)	€5 billion
Medium-term notes (Canadian) ⁽¹⁾	\$13 billion
Medium-term and subordinated notes (multi-currency) ⁽¹⁾	€15 billion
Medium-term and subordinated notes (Australian) ⁽¹⁾	AU\$3 billion
Covered bonds (multi-currency) ⁽¹⁾⁽²⁾	\$32 billion
NVCC subordinated notes (Canadian) ⁽¹⁾	\$9 billion

⁽¹⁾ Sustainable bonds may be issued under these funding programs in compliance with the Desjardins Sustainable Bond Framework.

⁽²⁾ The maximum authorized amount remains subject to the prudential limit set by the AMF.

The following table presents the remaining terms to maturity of wholesale funding.

Remaining contractual term to maturity of wholesale funding

(in millions of dollars)	As at March 31, 2026								As at December 31, 2025
	Less than 1 month	1 to 3 months	3 to 6 months	6 to 12 months	Total – Less than 1 year	1 to 2 years	Over 2 years	Total	Total

Mortgage loan securitization	—	372	573	525	1,470	2,063	20,459	23,992	22,517
Covered bonds	804	—	1,206	3,169	5,179	3,977	10,289	19,445	17,999
Subordinated notes	—	999	—	—	999	—	4,782	5,781	4,810
Total	\$ 7,362	\$ 4,830	\$ 6,771	\$ 10,585	\$ 29,548	\$ 10,361	\$ 46,369	\$ 86,278	\$ 82,997
Including:									
Secured	\$ 804	\$ 372	\$ 1,779	\$ 3,694	\$ 6,649	\$ 6,040	\$ 30,748	\$ 43,437	\$ 40,516
Unsecured	6,558	4,458	4,992	6,891	22,899	4,321	15,621	42,841	42,481

Desjardins Group's total wholesale funding shown in the table above was carried out by the Federation. Total wholesale funding increased \$3.3 billion compared to December 31, 2025, driven mainly by growth in mortgage loan securitization and covered bond issues. Desjardins Group does not foresee any event, commitment or requirement that could have a major impact on its ability to raise funds through wholesale funding or its members' and clients' deposits.

In addition, Desjardins Group diversifies its funding sources in order to limit its reliance on a single currency. The "Wholesale funding by currency" table presents a breakdown of borrowings on markets and subordinated notes by currency. These funds are obtained primarily through short- and medium-term notes, mortgage loan securitization, covered bonds and subordinated notes.

Wholesale funding by currency

(in millions of dollars and as a percentage)	As at March 31, 2026		As at December 31, 2025 ⁽¹⁾	
Canadian dollars	\$ 36,385	42.2%	\$ 33,498	40.4%
U.S. dollars	26,467	30.7	25,841	31.1
Euros	12,846	14.9	13,059	15.7
Other	10,580	12.2	10,599	12.8
Total	\$ 86,278	100.0%	\$ 82,997	100.0%

⁽¹⁾ Some data have been reclassified to conform with the presentation for the current period.

Moreover, the Federation participated in new issues under the NHA Mortgage-Backed Securities Program for a total amount of \$1.7 billion in the first three months of 2026. The Federation also made the following issues:

- On January 16, 2026, an issue totalling C\$1.5 billion subject to the bail-in regime, under its medium-term note program.
- On January 21, 2026, an issue totalling €1.0 billion subject to the bail-in regime, under its multi-currency medium-term note program.
- On March 3, 2026, an issue totalling C\$1.0 billion in subordinated notes eligible as NVCC under its Canadian NVCC subordinated notes program.
- On March 20, 2026, an issue totalling US\$1.0 billion under its legislative covered bond program.

Outstanding notes issued under the Federation's medium-term funding programs amounted to \$61.1 billion as at March 31, 2026, compared to \$57.7 billion as at December 31, 2025. The outstanding notes for these issues are presented under "Deposits – Business and government" on the Combined Balance Sheets.

Overall, these transactions made it possible to adequately meet the liquidity needs of Desjardins Group, to diversify its sources of funding and to further extend the average term.

Credit ratings of securities issued and outstanding

Desjardins Group's credit ratings affect its ability to access sources of funding on capital markets, as well as the conditions of such funding. They are also a factor considered in certain Desjardins Group transactions involving counterparties.

Rating agencies assign credit ratings and related ratings outlooks based on their own proprietary methodology, which includes a number of analytical criteria, including factors that are not under Desjardins Group's control. The rating agencies evaluate Desjardins Group on a combined basis and recognize its capitalization, its consistent financial performance, its significant market shares in Quebec and the quality of its assets. Consequently, the credit ratings of the Federation, a reporting issuer, are backed by Desjardins Group's financial strength.

The Federation has first-class credit ratings that are among the best of the major Canadian and international banking institutions.

On May 12, 2026, Fitch revised the long-term deposit credit rating of Desjardins from "AA" to "AA+".

The following table shows the different credit ratings assigned to the Federation's financial instruments.

Credit ratings of securities issued and outstanding

	DBRS	FITCH	MOODY'S	STANDARD & POOR'S
Fédération des caisses Desjardins du Québec				
Counterparty/Deposits ⁽¹⁾	AA	AA+	Aa1	A+
Short-term debt	R-1 (high)	F1+	P-1	A-1
Medium- and long-term debt, senior excluded from bail-in regime ⁽²⁾	AA	AA	Aa2	A+
Medium- and long-term debt, senior ⁽³⁾	AA (low)	AA-	A1	A-
NVCC subordinated notes	A (low)	A	A2	BBB+
Covered bonds	—	AAA	Aaa	—
Outlook	Stable	Stable	Stable	Stable

⁽¹⁾ Represents Moody's long-term deposit rating and counterparty risk rating, S&P's issuer credit rating, DBRS's long-term deposit rating, and Fitch's long-term deposit rating.

⁽²⁾ Includes issuable senior medium- and long-term debt that would be excluded from the bail-in regime applicable to Desjardins Group.

⁽³⁾ Includes issued senior medium- and long-term debt that qualifies for the bail-in regime applicable to Desjardins Group.

Desjardins Group regularly monitors the additional level of obligations that its counterparties would require in the event of a credit rating downgrade for the Federation. This monitoring enables Desjardins Group to assess the impact of such a downgrade on its funding capabilities and its ability to perform transactions in the normal course of its operations as well as ensure that it has the additional liquid assets and collateral to meet its obligations. Currently, Desjardins Group is not obliged to provide additional collateral in the event of its credit rating being lowered three notches by one or more credit rating agencies.

Contractual maturities of on-balance sheet items and off-balance sheet commitments

The following table presents assets and liabilities recorded on the Combined Balance Sheets and off-balance sheet commitments at their carrying amount and classified according to their residual contractual maturities. The classification of maturities is an information source for liquidity and funding risk, but it differs from the analysis performed by Desjardins Group to determine the expected maturity of the items for liquidity risk management purposes. Many factors other than contractual maturity are taken into consideration to measure expected future cash flows and liquidity risk.

The value of the credit commitments presented in this table represents the maximum amount of additional credit that Desjardins Group could be required to grant if the commitments were fully used. The value of guarantees and standby letters of credit amounts to the maximum cash outflows that Desjardins Group could be required to make in the event of complete default of the parties to the guarantees, without taking any possible recovery into account. These commitments and guarantees do not necessarily represent future liquidity needs because a large portion of these instruments will expire or be cancelled without giving rise to any cash outflows.

Note 16, "Insurance and reinsurance contracts," to the annual combined financial statements provides additional information on the contractual maturities of reinsurance contract assets and insurance contract liabilities.

Contractual maturities of on-balance sheet items and off-balance sheet commitments

⁽¹⁾ Equity securities are classified under "No stated maturity."⁽²⁾ Amounts repayable on demand are classified under "No stated maturity."⁽³⁾ Deposits payable on demand or after notice are considered as having no stated maturity.⁽⁴⁾ Amounts are presented by remaining contractual maturity of the underlying security.⁽⁵⁾ Includes personal lines of credit, lines of credit secured by real or immovable property, and credit card lines for which the amounts committed are unconditionally revocable at any time at Desjardins Group's discretion. These are classified under "No stated maturity."

ADDITIONAL INFORMATION

CONTROLS AND PROCEDURES

During the three-month period ended March 31, 2026, Desjardins Group made no changes to its policies, procedures or other processes with regard to internal control that materially affected, or may materially affect internal control over financial reporting. The adoption on January 1, 2026 of the amendments to IFRS 7, "Financial Instruments: Disclosures", and IFRS 9, "Financial Instruments", did not materially affect internal control over financial reporting. The parties involved and their responsibilities regarding such internal control are described on pages 92 and 93 of the Desjardins Group's 2025 annual MD&A.

RELATED PARTY DISCLOSURES

In the normal course of operations, Desjardins Group offers financial services to related parties, including its associates, joint ventures and other related companies, and enters into agreements for operating services with them. It also pays its key management personnel compensation on terms similar to those offered to unrelated parties.

Furthermore, Desjardins Group provides its financial products and services to its directors, its key management personnel and the persons related to them on terms similar to those offered to unrelated parties.

Desjardins Group has set up a process to obtain assurance that all transactions with its officers and the persons related to them have been carried out on terms similar to those offered to unrelated parties and in compliance with the legislative framework for its various components. These policies and procedures have not changed significantly since December 31, 2025.

Additional information on related party transactions is provided in Note 30, "Related party disclosures," to the Annual Combined Financial Statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

A description of the accounting policies used by Desjardins Group is essential to understanding the Annual and Interim Combined Financial Statements. The significant accounting policies are described in Note 2, "Accounting policies," to Desjardins Group's Annual Combined Financial Statements on pages 123 to 143 of the 2025 Annual Report, except for the changes described in the "Changes in accounting policies" section of Note 2, "Accounting policies," to the Desjardins Group's Interim Combined Financial Statements following the adoption of amendments to IFRS 7, "Financial Instruments: Disclosures", and IFRS 9, "Financial Instruments".

Some of these policies are of particular importance in presenting Desjardins Group's financial position and operating results because they require management to make judgments as well as estimates and assumptions that affect the reported amounts of some assets, liabilities, income and expenses, as well as related information. Explanations of the significant accounting policies that have required management to make difficult, subjective or complex judgments, often about matters that are inherently uncertain, are provided on pages 93 to 99 of the 2025 annual MD&A. No significant changes were made to these accounting policies during the first three months of 2026.

All the accounting policies that required management to make difficult, subjective or complex judgments, often about matters that are inherently uncertain, are presented in Note 1, "Basis of presentation," to the Annual Combined Financial Statements, except for the changes described in the "Changes in accounting policies" section of Note 2, "Accounting policies."

The global economic and geopolitical conditions continue to have an impact on the judgments and significant estimates and assumptions made by management in preparing the Interim Combined Financial Statements for the three-month period ended March 31, 2026. The judgments, estimates and assumptions that will be made for future periods will be reassessed in light of the development of these highly uncertain conditions and could therefore differ from those made in preparing the Interim Combined Financial Statements for the three-month period ended March 31, 2026. Desjardins Group is closely monitoring developments and their impact on its surplus earnings and financial position.

FUTURE ACCOUNTING CHANGES

Accounting standards issued by the IASB but not yet effective as at December 31, 2025 are described in Note 2, "Accounting policies," to Desjardins Group's Annual Combined Financial Statements, on page 142 and 143 of the 2025 Annual Report. The IASB has not issued any new accounting standards or amendments to an existing standard during the three-month period ended March 31, 2026, having a significant effect on the Interim Combined Financial Statements of Desjardins Group.

ADDITIONAL INFORMATION REQUIRED PURSUANT TO THE AMF'S DECISION NO. 2021-FS-0091

In addition to the entities comprising the Desjardins Cooperative Group (as defined under "Desjardins Group profile") and the subsidiaries of such entities, Desjardins Group's Combined Financial Statements include Caisse Desjardins Ontario Credit Union Inc. (CDO). The CDO's financial information compared to that of Desjardins Group is presented in the table below.

CDO financial information

(in millions of dollars and as a percentage)	As at March 31, 2026			As at December 31, 2025		
	CDO	Desjardins Group Combined Balance Sheets	% proportion	CDO	Desjardins Group Combined Balance Sheets	% proportion

Surplus earnings before member dividends	24	960	2.5	26	1,058	2.5	11	738	1.5
Net surplus earnings for the period after member dividends	20	850	2.4	22	932	2.4	8	654	1.2

GLOSSARY

Advanced Internal Ratings-Based Approach

Approach under which risk weighing is based on the type of counterparty (individuals, small or medium-sized business, large corporation, etc.) and risk-weighting factors determined using internal parameters: the borrower's probability of default, loss given default, applicable maturity and exposure at default.

Allowance for credit losses

The loss allowance for expected credit losses reflects an unbiased amount, based on a probability-weighted present value of cash flow shortfalls, and takes into account reasonable and supportable information about past events, current conditions and forecasts of future economic conditions.

Amortized cost

For a financial asset or a financial liability, represents the historical cost at initial recognition, decreased or increased by amortization and any differences that made it fluctuate from initial recognition to maturity.

Annuity premium

Amount invested by a policyholder in order to receive annuity payments, immediately or after an accumulation period.

Assets under administration

Assets administered by a financial institution that are beneficially owned by its members or clients and are therefore not recognized on its Combined Balance Sheet. Services provided in respect of such assets are administrative in nature, such as custodial services, collection of investment income and settlement of buy and sell transactions.

Assets under management

Assets managed by a financial institution that are beneficially owned by its members or clients and are therefore not recognized on its Combined Balance Sheet. Services provided in respect of assets under management include selecting investments and offering investment advice. Assets under management may also be administered by the financial institution. In such case, they are also included in assets under administration.

Autorité des marchés financiers (AMF)

Organization whose mission is to enforce the laws governing the financial industry, particularly in the areas of insurance, securities, deposit-taking institutions and financial product and service distribution.

Average assets

Average of assets presented in the Combined Financial Statements at quarter-end calculated from the quarter preceding the relevant period.

Average core interest-bearing assets

Include securities, cash and deposits with financial institutions, as well as loans, and exclude life and health insurance and property and casualty insurance assets and assets related to trading activities, and other assets not generating net interest income. Average of quarter-end balances calculated from the quarter preceding the relevant period.

Average core interest-bearing assets – Personal and Business Services

Include securities, cash and deposits with financial institutions, as well as loans, and excludes assets related to trading activities as well as assets related to capital market and liquidity management activities, and all other assets not generating net interest income – Personal and Business Services. Average of quarter-end balances calculated from the quarter preceding the relevant period.

Average deposits

Average of deposits presented in the Combined Financial Statements at quarter-end calculated from the quarter preceding the relevant period.

Average equity – Group's share

Average equity – Group's share presented in the Combined Financial Statements at quarter-end calculated from the quarter preceding the relevant period.

Average gross loans

Average of loans, presented in the Combined Financial Statements at quarter-end calculated from the quarter preceding the relevant period.

Average interest-bearing assets

Consist of securities, including those borrowed or purchased under reverse repurchase agreements, cash and deposits with financial institutions, as well as loans, and exclude life and health insurance and property and casualty insurance assets, as well as all other assets not generating net interest income. Average of quarter-end balances calculated from the quarter preceding the relevant period.

Average interest-bearing liabilities

Include deposits, subordinated notes and other interest-bearing liabilities, and exclude life and health insurance and property and casualty insurance liabilities as well as all other liabilities not generating any net interest income.

Average liabilities

Average of liabilities presented in the Combined Financial Statements at quarter-end calculated from the quarter preceding the relevant period.

Average net loans

Average of loans, net of the allowance for credit losses, presented in the Combined Financial Statements at the quarter-end calculated from the quarter preceding the relevant period.

Basis point

Unit of measure equal to one one-hundredth of a percent (0.01%).

Bond

Certificate evidencing a debt under which the issuer promises to pay the holder a specified amount of interest for a specified period of time, and to repay the borrowing at maturity. Generally, assets are pledged as security for the borrowing, except in the case of government or corporate bonds. This term is often used to describe any debt security.

Capital ratios

Ratios determined by dividing regulatory capital by risk-weighted assets. These measures are defined in the *Capital Adequacy Guideline* issued by the AMF.

Capital shares

Equity security offered to Desjardins caisse members.

Catastrophe and notable event- Catastrophe

In property and casualty insurance, group of claims caused by one or multiple close events arising from, among others, natural or other than natural causes, for which the cost is deemed significant since it reaches a minimum threshold, established annually Desjardins Group's management, for the reinsurance program retention.

- Natural catastrophes can take many forms and include, but are not limited to, hurricanes, tornados, windstorms, hailstorms, heavy rainfalls, ice storms, floods, extreme weather conditions and wildfires.
- Catastrophes other than natural catastrophes include, but are not limited to, terrorist acts, riots, explosions, crashes, train wrecks, large-scale cyber attacks.

- Notable event

In property and casualty insurance, group of claims caused by one or multiple close events arising from, among others, natural or other than natural causes, for which the impact on the loss ratio and claims frequency is deemed significant by Desjardins Group's management.

Commitment- Direct commitment

Any agreement entered into by a Desjardins Group component with a natural or legal person creating an on- or off-balance sheet exposure, either disbursed or non-disbursed, revocable or irrevocable, with or without condition, that may lead to losses for the component if the debtor is unable to meet its obligations.

- Indirect commitment

Any financial receivable creating a credit exposure that is acquired by a Desjardins Group component in connection with a purchase on the market or the delivery of a financial asset pledged as collateral by a client or a counterparty, whose value may change in particular as a result of the deterioration of the creditworthiness of the counterparty associated to this receivable or changes in market prices.

Contractual service margin (CSM)

For insurance contracts that are not measured using the premium allocation approach, represents the unearned profit that will be recognized under "Insurance revenue," in the Combined Statements of Income, as insurance contract services are provided.

Countercyclical buffer

The countercyclical buffer aims to ensure that capital requirements take account of the macro-financial environment in which Desjardins Group operates. The AMF could deploy this buffer when it judges that excessive credit growth is associated with a build-up of system-wide risks and, as such, would provide a buffer of capital to absorb potential losses.

Covered bond

Full recourse on-balance sheet bond issued by a financial institution and secured by assets, comprised mainly of mortgage loans, over which investors enjoy a priority claim in the event of an issuer's insolvency or bankruptcy. These assets are separated from the issuer's assets in the event of the issuer's insolvency or bankruptcy and belong to a bankruptcy remote structured entity that guarantees the bond.

Credit commitment

Unused portions of authorizations to extend credit in the form of loans, guarantees or letters of credit, whose primary purpose is to ensure that members and clients have funds available, when necessary, for variable maturity terms and under specific conditions.

Credit instrument

Credit facility offered in the form of a loan or other financing vehicle recognized in the Combined Balance Sheets or in the form of an off-balance sheet product. Credit instruments include credit commitments, documentary letters of credit as well as guarantees and standby letters of credit.

Credit loss provisioning rate

Provision for credit losses on loans and off-balance sheet items expressed as a percentage of average gross loans.

Credit valuation adjustment (CVA)

Adjustment applied to the value of over-the-counter derivatives to reflect the possibility that the counterparty will not meet its contractual obligations and that Desjardins Group will be unable to receive the full amounts owed.

Defined benefit pension plan

Pension plan guaranteeing each participant a defined level of retirement income that is often based on a formula set by the plan in terms of the participant's salary and years of service.

Derivative financial instrument

Financial contract whose value fluctuates based on an underlying asset, but that does not require holding or delivering the underlying asset itself. Derivatives are used to transfer, modify or reduce current or expected risks, including risks related to interest and exchange rates and financial indexes.

Desjardins Group (Desjardins) component

Cooperative or subsidiary that is part of Desjardins Group.

Direct written premiums

In property and casualty insurance, the premiums stipulated in insurance policies issued and in force during the year. In life and health insurance, insurance or annuity premiums for the policies or certificates issued during the year.

Documentary letter of credit

Instrument issued for a member or a client that represents Desjardins Group's agreement to honour drafts presented by a third party upon completion of certain activities, up to a set maximum amount. Desjardins Group is exposed to the risk that the client does not ultimately pay the amount of the drafts. However, the amounts used are secured by the related goods.

Economic capital

Amount of capital that an institution must maintain, in addition to anticipated losses, to ensure its solvency over a certain horizon and at a high confidence level.

Effective interest rate

Rate determined by discounting total future cash flows, including those related to commissions paid or received, premiums or discounts and transaction costs.

Efficiency ratio - personal and business services

Gross non-interest expense for the Personal and Business Services segment expressed as a percentage of total net revenue for the Personal and Business Services segment

Effective tax rate on surplus earnings after member dividends

Income taxes on surplus earnings after member dividends expressed as a percentage of surplus earnings after member dividends.

Exposure at default (EAD)

Estimate of the amount of a given exposure at time of default. For balance sheet exposures, it corresponds to the balance as at observation time. For off-balance sheet exposures, it includes an estimate of additional draws that may be made between observation time and default.

Exposures related to residential mortgage loans

In accordance with the regulatory capital framework, risk category that includes mortgage loans and credit margins secured by real property granted to individuals.

Fair value

Price that would be received to sell an asset or paid to transfer a liability in an orderly transaction at the measurement date.

Fair value measurement

Measurement to determine the approximate value at which financial instruments could be traded in a current transaction between willing parties.

Forward contract

Contractual commitment to sell or purchase a determined quantity of a specified underlying asset on a future specified date and at a predetermined price. These contracts, which are derivatives, are tailored and traded over the counter.

Forward exchange contract

Contractual commitment to sell or purchase a fixed amount of foreign currency on a specified future date and at a predetermined exchange rate.

Foundation Internal Ratings-Based Approach

Approach under which risk weighing is based on the type of counterparty (individuals, small or medium-sized business, large corporation, etc.) and risk-weighting factors determined using internal parameters: the borrower's probability of default, applicable maturity and exposure at default. The regulator prescribes the loss given default parameters.

Futures contract

Contractual commitment to sell or purchase a determined quantity of a specified underlying asset on a future specified date and at a predetermined price. These contracts, which are derivatives, are standardized and exchange-traded.

Gross credit-impaired loan

A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated cash flows of that financial asset have occurred. A financial asset is therefore considered credit-impaired when it is in default, unless the detrimental impact on the estimated future cash flows is considered insignificant. The definition of default is associated with an instrument for which contractual payments are 90 days past due, or certain other criteria.

Gross credit-impaired loans/gross loans

Gross credit-impaired loans expressed as a percentage to total gross loans.

Group insurance premium

Payment that the insurance policyholder is required to make to maintain the contract in force. This payment represents the cost of insurance. The premium is directly proportional to the number of insured persons and the coverage chosen by the policyholder.

Guarantee and standby letter of credit

Irrevocable commitment by a financial institution to make payments in the event that a member or client cannot meet financial obligations to third parties. Desjardins Group's policy with respect to collateral received for these instruments is generally the same as for loans.

Hedging

Transaction designed to reduce or offset Desjardins Group's exposure to one or more financial risks that involves taking a position exposed to effects that are equivalent, but of opposite direction, to the effects of market fluctuations on an existing or forecast position.

Indemnification commitment related to securities lending

Commitment made to members and clients with whom Desjardins Group entered into securities lending agreements and intended to ensure that the fair value of the securities lent will be reimbursed if the borrower does not return the borrowed securities or if the fair value of assets held as collateral is insufficient to cover the fair value of the securities lent. These commitments usually mature before being used.

Individual insurance premium

Payment that the insurance policyholder is required to make to maintain the contract in force. This payment represents the cost of insurance and can sometimes include a savings component. The cost of insurance portion of the premium is directly proportional to the amount of risk underwritten by the insurer.

Insurance contract

Insurance contracts are contracts that transfer a significant insurance risk to an insurer upon their issuance. An insurance risk is transferred when the insurance subsidiaries agree to compensate a contract holder if a specified uncertain future event adversely affects the contract holder. In certain situations, an insurance contract may also transfer a financial risk.

Insurance contract liabilities

Obligation representing the amount of an insurance company's commitments toward all insureds and beneficiaries, including in particular an amount to cover the payment of benefits and claims.

Insurance premium

Payment that the insurance policyholder is required to make to maintain the contract in force. This payment represents the cost of insurance and can sometimes include a savings component. The premium is directly proportional to the amount of risk underwritten by the insurer.

Insurance sales

Metric used to measure growth in Wealth Management and Life and Health Insurance segment operations. It is equal to annualized gross new premiums under group and individual insurance policies.

Large loss

In property and casualty insurance, single claim having a significant cost.

Leverage ratio

Ratio calculated as the capital measure, which is Tier 1 capital, divided by the exposure measure. The exposure measure includes:

- on-balance sheet exposures;
- securities financing transaction exposures;
- derivative exposures; and
- off-balance sheet items.

Liquidity coverage ratio

Ratio determined by dividing the stock of unencumbered high-quality liquid assets by the amount of net cash outflows for the next 30 days assuming an acute liquidity stress scenario.

Loss given default (LGD)

Economic loss that may be incurred should the borrower default, expressed as a percentage of exposure at default.

Loss on onerous contracts

When a group of insurance contracts is onerous on initial recognition or subsequently becomes onerous, a loss on onerous contracts is recognized as insurance service expenses and a loss component is added to the liability for remaining coverage. Subsequent changes in the loss component related to future service are recognized as losses and reversals of losses on onerous contracts under "Insurance service expenses" in the Combined Statements of Income.

Master netting agreement

Standard agreement developed to reduce the credit risk of multiple derivative transactions by creating a legal right to set off the obligations of a counterparty in the event of default.

Matching

Process of adjusting asset, liability and off-balance sheet item maturities in order to reduce risks related to interest or exchange rates and financial indexes. Matching is used in asset/liability management.

Member dividend

As a cooperative financial group, Desjardins Group distributes to its members a portion of its surplus earnings for a given year, taking into account its financial capacity. This distribution, called member dividend, is paid by the caisses and tailored to each member based on the use they make of their cooperative's financial services.

Morbidity rate

Probability that a person of a given age will suffer an illness or disability. The accident/health insurance premium paid by a person belonging to a particular age group is based on this group's morbidity rate.

Mortality rate

Rate of death in a particular group of persons. The life insurance premium paid by a person belonging to a particular age group is based on this group's mortality rate.

Mortgage-backed security

Security created through the securitization of a pool of residential mortgage loans under the *National Housing Act*.

Net interest income

Difference between what a financial institution receives on assets such as loans and securities and what it pays out on liabilities such as deposits and subordinated notes.

Net interest income on core assets

Net interest income excluding net interest income generated by non-core assets.

Net interest income on core assets – Personal and Business Services

Net interest income – Personal and Business Services excluding net interest income generated by non-core assets – Personal and Business Services.

Net interest margin

Net interest income on core assets expressed as a percentage of average core interest-bearing assets.

Net interest margin – Personal and Business Services

Net interest income on core assets – Personal and Business Services expressed as a percentage of average core interest-bearing assets – Personal and Business Services.

Net sales of savings products

Metric used to measure growth in Wealth Management and Life and Health Insurance segment operations. It is equal to sales of group and individual savings products manufactured or distributed by segment entities, and is comprised of on- or off-balance sheet deposits, less redemptions.

Net stable funding ratio (NSFR)

Ratio determined by dividing available stable funding, designated by capital and liabilities, by required stable funding, designated by assets.

Notional amount

Reference amount used to calculate payments for instruments such as forward rate agreements and interest rate swaps. This amount is called "notional" because it does not change hands.

NVCC subordinated notes

Securities that meet the non-viability contingent capital (NVCC) requirements set out in the *Capital Adequacy Guideline* issued by the AMF, in particular securities issued by the Federation with a clause providing for their automatic conversion into capital shares of the Federation upon the occurrence of a trigger event as defined in the guideline.

Off-balance sheet exposure

Includes guarantees, commitments, derivatives and other contractual agreements whose total notional amount may not be recognized on the balance sheet.

Office of the Superintendent of Financial Institutions (OSFI)

Organization whose mission is to enforce all laws governing the financial industry in Canada, particularly as concerns banks, insurance companies, trust companies, loan companies, cooperative credit associations, fraternal companies and private pension plans subject to federal oversight.

Operating leverage

Represents the difference between the growth rate for total net revenue and the growth rate for net non-interest expense.

Option

Contractual agreement that grants the right, but not the obligation, to sell (put option) or to buy (call option) a specified amount of a financial instrument at a predetermined price (the exercise or strike price) on or before a specified date.

Other retail client exposures

In accordance with the regulatory capital framework, risk category that includes all loans granted to individuals except for exposures related to residential mortgage loans and qualifying revolving retail client exposures.

Pension plan

Contract under which participants receive retirement benefits under certain terms starting at a given age. A pension plan is funded through contributions made either by the employer alone or by both the employer and the participants.

Probability of default (PD)

Probability that a borrower defaults on his obligations over a period of one year.

Provision for credit losses

Amount recognized in profit or loss to bring the allowance for credit losses to a level determined appropriate by management. It includes provisions for credit losses on unimpaired and impaired financial assets.

Qualifying revolving retail client exposures

In accordance with the regulatory capital framework, risk category that includes credit card loans and unsecured credit margins granted to individuals.

Regulatory capital

In accordance with the definition set out in the *Capital Adequacy Guideline* issued by the AMF, the regulatory capital under Basel III comprises Tier 1A capital, Tier 1 capital and Tier 2 capital. The composition of these various tiers is presented in the "Capital management" section of the Management's Discussion and Analysis.

Regulatory funds

Funds needed to cover unexpected losses, calculated according to parameters and methods prescribed by regulatory authorities.

Reinsurance contract

Contract whereby one insurer assumes all or part of a risk undertaken by another insurer. Despite such a contract, the original insurer remains fully liable to its policyholders for the insurance obligations.

Repurchase agreement

Agreement involving both the sale of securities for cash and the repurchase of these securities for value at a later date. This type of agreement represents a form of short-term financing.

Return on equity

Return on equity is equal to surplus earnings before member dividends, excluding the non-controlling interests' share, expressed as a percentage of average equity – Group's share.

Reverse repurchase agreement

Agreement involving both the purchase of securities for cash and the sale of these securities for value at a later date. This type of agreement represents a form of short-term financing.

Risk adjustment for non-financial risk

Represents the compensation that the insurance subsidiaries require for bearing the uncertainty about the amount and timing of the cash flows that arises from non-financial risks when they fulfill insurance contracts.

Risk-weighted assets

Assets adjusted based on a risk-weighting factor prescribed by regulations to reflect the level of risk associated with items presented in the combined balance sheets. Some assets are not weighted, but rather deducted from capital. The calculation method is defined in the guidelines issued by the AMF. For more details, see the "Capital management" section of the Management's Discussion and Analysis.

Securitization

Process by which financial assets, such as mortgage loans, are converted into asset-backed securities.

Security borrowed or purchased

Security typically borrowed or purchased to cover a short position. The borrowing or purchase usually requires that an asset, taking the form of cash or highly rated securities, be pledged as collateral by the borrower.

Security lent or sold

Security typically lent or sold to cover a short position of the borrower. The loan or sale usually requires that an asset, taking the form of cash or highly rated securities, be pledged as collateral by the borrower.

Security sold short

Commitment by a seller to sell a security it does not own. Typically, the seller initially borrows the security to deliver it to the purchaser. At a later date, the seller buys an identical security to replace the borrowed security.

Segregated fund

Type of fund offered by insurance companies through a variable contract that provides the contract holder with a number of guarantees, such as principal repayment upon death. Segregated funds encompass a range of categories of securities and are designed to meet a variety of investment objectives. Segregated fund deposits represent amounts invested by clients. Segregated funds are comprised of investment funds with capital guaranteed upon death or at maturity.

Standardized Approach

- Credit risk
Default approach used to calculate risk-weighted assets. Under this method, the entity uses valuations performed by external credit assessment institutions recognized by the AMF to determine the risk-weighting factors related to the various exposure categories.
- Market risk
Default approach used to calculate risk-weighted assets for the market risk classes: interest rate risk, credit spread risk, equity risk, foreign exchange risk, commodity risk and default risk.
- Operational risk
Standardized Approach for operational risk based on two main components: a Business Indicator Component (BIC), which is based on financial statements, and a Loss Component (LC), from which an Internal Loss Multiplier (ILM) is calculated. The operational risk capital requirement is calculated by multiplying the BIC and the ILM, whereas operational risk-weighted assets represent these capital requirements multiplied by 12.5.

Structured entity

Entity that has been designed so that voting rights or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes: restricted activities, a narrow and well-defined objective, insufficient equity to permit it to finance its activities without subordinated financial support, or financing in the form of multiple contractually linked instruments to investors.

Subordinated note

Unsecured note whose repayment in the event of liquidation is subordinated to the prior repayment of certain other creditors.

Subsidiary

Company controlled by the Federation.

Swap

Derivative financial instrument under which two parties agree to exchange interest rates or currencies for a specified period according to predetermined rules.

TLAC leverage ratio

Ratio determined by dividing the total loss absorbing capacity by the exposure measure. The exposure measure is independent from risk and includes:

- on-balance sheet exposures;
- securities financing transaction exposures;
- derivative exposures; and
- off-balance sheet items.

TLAC ratio

Ratio determined by dividing the total loss absorbing capacity (TLAC) by risk-weighted assets.

Total loss absorbing capacity – TLAC

Regulatory capital and instruments that meet the eligibility criteria set out in the Total Loss Absorbing Capacity Guideline issued by the AMF.

Unused exposure

Amount of credit authorizations offered in the form of margins or loans that is not yet used.

Used exposure

Amount of funds invested in or advanced to a member or client.

Value at Risk (VaR)

Potential loss that could occur by the next business day in normal market conditions and at a confidence level of 99% (approximate loss that could occur once every 100 days).

NOTES TO THE CONDENSED INTERIM COMBINED FINANCIAL STATEMENTS (unaudited)

NOTE 1 – BASIS OF PRESENTATION

Nature of operations

Desjardins Group is made up of the Desjardins caisses in Quebec, Caisse Desjardins Ontario Credit Union Inc. (CDO), the Fédération des caisses Desjardins du Québec (the Federation) and its subsidiaries, and the Fonds de sécurité Desjardins. The subsidiaries are primarily active across Canada. The address of its head office is 100 Des Commandeurs Street, Lévis, Quebec, Canada.

Combined Financial Statements

As an integrated financial services group, Desjardins Group is a complete economic entity. These unaudited Condensed Interim Combined Financial Statements (the Interim Combined Financial Statements) have been prepared to present the financial position, the financial performance and the cash flows of this economic entity. The Desjardins caisses exercise a collective power over the Federation, which is the cooperative entity responsible for assuming orientation, framework, coordination and development activities for Desjardins Group. The role of the Federation is also to protect the interests of Desjardins Group members.

As Desjardins caisses and the Federation are financial services cooperatives, these Interim Combined Financial Statements differ from the consolidated financial statements of a group with a traditional organizational structure. Consequently, the Combined Financial Statements of Desjardins Group are a combination of the accounts of the Desjardins caisses in Quebec, the Federation, CDO and the entities controlled by them, namely the Federation's subsidiaries and the Fonds de sécurité Desjardins. The capital stock of Desjardins Group represents the aggregate of the capital stock issued by the Desjardins caisses in Quebec, the Federation and CDO.

Statement of Compliance

Pursuant to the *Act Respecting Financial Services Cooperatives*, these Interim Combined Financial Statements have been prepared by Desjardins Group's management in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), more specifically in accordance with International Accounting Standard (IAS) 34, "*Interim Financial Reporting*," and the accounting requirements of the Autorité des marchés financiers (AMF) in Quebec, which do not differ from IFRS.

These Interim Combined Financial Statements should be read in conjunction with the audited Annual Combined Financial Statements (the Annual Combined Financial Statements) for the year ended December 31, 2025, and the shaded areas of section 4.0, "Risk management," of the related Management's Discussion and Analysis, which are an integral part of the Annual Combined Financial Statements.

These Interim Combined Financial Statements were approved by the Board of Directors of Desjardins Group, which is the Board of Directors of the Federation, on May 13, 2026.

Significant judgments, estimates and assumptions

All the accounting policies that required management to make difficult, subjective or complex judgments, often about matters that are inherently uncertain, are presented in Note 1, "Basis of presentation," to the Annual Combined Financial Statements, except for the changes described in the "Changes in accounting policies" section of Note 2, "Accounting policies."

The global economic and geopolitical conditions continue to have an impact on the judgments and significant estimates and assumptions made by management in preparing the Interim Combined Financial Statements for the three-month period ended March 31, 2026. The judgments, estimates and assumptions that will be made for future periods will be reassessed in light of the development of these highly uncertain conditions and could therefore differ from those made in preparing these Interim Combined Financial Statements. Desjardins Group is closely monitoring developments and their impact on its surplus earnings and financial position.

Presentation and functional currency

These Interim Combined Financial Statements are expressed in Canadian dollars, which is also the functional currency of Desjardins Group. Dollar amounts presented in the tables of the Notes to the Interim Combined Financial Statements are in millions of dollars, unless otherwise stated.

NOTE 2 – ACCOUNTING POLICIES

All accounting policies were applied as described in Note 2, "Accounting policies," to the Annual Combined Financial Statements, except for the changes described in the "Changes in accounting policies" section of this note.

FUTURE ACCOUNTING CHANGES

Accounting standards issued by the IASB, but not effective as at December 31, 2025, are described in Note 2, "Accounting policies," to the Annual Combined Financial Statements. The IASB has not issued any new accounting standards or amendments to an existing standard during the three-month period ended March 31, 2026, having a significant effect on the Interim Combined Financial Statements of Desjardins Group.

CHANGES IN ACCOUNTING POLICIES

Adoption of the amendments to IFRS 7, "Financial Instruments: Disclosures," and IFRS 9, "Financial Instruments"

On January 1, 2026, Desjardins Group adopted the amendments to IFRS 9, "Financial Instruments," retrospectively without restatement of comparative periods. The amendments to IFRS 9 clarify the recognition and derecognition date for certain financial assets and liabilities. They also clarify and provide additional guidance for assessing whether the cash flows of a financial asset are solely payments of principal and interest on the principal amount outstanding. The significant accounting policies that were changed as a result of adopting the amendments to IFRS 9 are described below, and the retrospective impact of adopting these amendments was recognized in the opening balances in the Combined Balance Sheet as at January 1, 2026, and is presented in the "Impact of changes in accounting policies" section of this note.

Desjardins Group also adopted the amendments to IFRS 7, "Financial Instruments: Disclosures," which add new disclosures for certain instruments whose contractual terms could change cash flows and improve the disclosures about equity instruments designated as at fair value through other comprehensive income.

The information for the three-month period ended March 31, 2026, is presented in accordance with these amended standards, while the information for the comparative period is presented in accordance with the standards that were in effect before January 1, 2026, and the accounting policies described in the Annual Combined Financial Statements for the year ended December 31, 2025.

a) Financial assets and liabilities

Derecognition of financial assets and liabilities

A financial asset is derecognized from the Combined Balance Sheets on the date the contractual rights to the cash flows from the asset expire, when the contractual rights to receive these cash flows are retained but Desjardins Group has the obligation to pay them to a third party under certain conditions, or when Desjardins Group transfers the contractual rights to receive the cash flows and substantially all the risks and rewards of ownership of the asset have been transferred.

A financial liability is derecognized at the settlement date, which is the date the related obligation is discharged or cancelled or expires, or before such date if Desjardins Group elects to apply the permitted exception for a financial liability settled in cash using an electronic payment system and if, and only if, the payment instruction has been initiated and the criteria for the exception have been met. In that respect, management must use its judgment to determine when it no longer has the practical ability to withdraw, stop or cancel the payment instruction. Desjardins Group has elected to apply this exception.

The other accounting policies related to the derecognition of financial assets and liabilities have not been changed and are described in Note 2, "Accounting Policies," to the Annual Combined Financial Statements for the year ended December 31, 2025.

b) Cash and deposits with financial institutions

"Cash and deposits with financial institutions" includes cash and cash equivalents, which consist notably of deposits with the Bank of Canada, deposits with financial institutions and certain fixed-income securities. These financial instruments mature in the short term, are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

NOTE 2 – ACCOUNTING POLICIES (suite)

IMPACT OF CHANGES IN ACCOUNTING POLICIES

Adoption of the amendments to IFRS 9, "Financial Instruments"

The retrospective impact of adopting the amendments to IFRS 9 was recognized in the opening balances in the Combined Balance Sheet as at January 1, 2026, and is presented in the following table. There were no changes in the classification of Desjardins Group's financial assets as at January 1, 2026.

	Balance as at December 31, 2025	Adoption of the amendments to IFRS 9	Opening balance as at January 1, 2026
ASSETS			
Cash and deposits with financial institutions	\$ 5,848	\$ (634)	\$ 5,214
Securities	105,677	—	105,677
Securities borrowed or purchased under reverse repurchase agreements	22,809	—	22,809
Loans	314,703	(19)	314,684
Segregated fund net assets	34,079	—	34,079
Other assets	27,126	645	27,771
TOTAL ASSETS	\$ 510,242	\$ (8)	\$ 510,234
LIABILITIES			
Deposits	\$ 329,494	\$ (313)	\$ 329,181
Insurance contract liabilities	34,737	—	34,737
Other liabilities	98,889	305	99,194
Subordinated notes	4,810	—	4,810
TOTAL LIABILITIES	\$ 467,930	\$ (8)	\$ 467,922
EQUITY	\$ 42,312	\$ —	\$ 42,312
TOTAL LIABILITIES AND EQUITY	\$ 510,242	\$ (8)	\$ 510,234

NOTE 3 – CARRYING AMOUNT OF FINANCIAL INSTRUMENTS

CLASSIFICATION AND CARRYING AMOUNT OF FINANCIAL INSTRUMENTS

The following tables present the carrying amount of financial assets and liabilities according to their classification in the classes defined in the financial instrument standards.

	At fair value through profit or loss		At fair value through other comprehensive income		Amortized cost ⁽¹⁾	Total
	Classified as at fair value through profit or loss	Designated as at fair value through profit or loss	Classified as at fair value through other comprehensive income ⁽¹⁾	Designated as at fair value through other comprehensive income		
As at March 31, 2026						
Financial assets						
Cash and deposits with financial institutions	\$ 637	\$ 92	\$ 541	\$ —	\$ 5,020	\$ 6,290
Securities	27,629	21,185	57,043	936	37	106,830
Securities borrowed or purchased under reverse repurchase agreements	—	—	—	—	27,033	27,033
Loans, net of allowance for credit losses	—	1,546	—	—	317,248	318,794
Segregated fund net assets	34,353	—	—	—	(63)	34,290
Other financial assets						
Derivative financial instruments ⁽²⁾	11,407	—	—	—	—	11,407
Amounts receivable from clients, brokers and financial institutions	—	—	—	—	5,073	5,073
Other	—	—	—	—	2,928	2,928
Total financial assets	\$ 74,026	\$ 22,823	\$ 57,584	\$ 936	\$ 357,276	\$ 512,645
Financial liabilities						
Deposits	\$ —	\$ 2,375	\$ —	\$ —	\$ 331,729	\$ 334,104
Other financial liabilities						
Commitments related to securities sold short	16,900	—	—	—	—	16,900
Commitments related to securities lent or sold under repurchase agreements	—	—	—	—	21,218	21,218
Derivative financial instruments ⁽²⁾	9,071	—	—	—	—	9,071
Amounts payable to clients, brokers and financial institutions	—	—	—	—	15,487	15,487
Segregated fund net liabilities – Investment contracts	—	—	—	—	30,865	30,865
Other	72	—	—	—	6,889	6,961
Subordinated notes	—	—	—	—	5,781	5,781
Total financial liabilities	\$ 26,043	\$ 2,375	\$ —	\$ —	\$ 411,969	\$ 440,387

⁽¹⁾ As at March 31, 2026, the allowance for credit losses on securities at "Amortized cost" was insignificant, and the allowance for credit losses on securities "Classified as at fair value through other comprehensive income" totalled \$25 million. Detailed information on the allowance for credit losses on loans is presented in Note 5, "Loans and allowance for credit losses."

⁽²⁾ Include derivative financial instruments designated as hedging instruments amounting to \$1,741 million in assets and \$142 million in liabilities.

NOTE 3 – CARRYING AMOUNT OF FINANCIAL INSTRUMENTS (continued)

CLASSIFICATION AND CARRYING AMOUNT OF FINANCIAL INSTRUMENTS (continued)

As at December 31, 2025	At fair value through profit or loss		At fair value through other comprehensive income		Amortized cost ⁽¹⁾	Total
	Classified as at fair value through profit or loss	Designated as at fair value through profit or loss	Classified as at fair value through other comprehensive income ⁽¹⁾	Designated as at fair value through other comprehensive income

Subordinated notes	—	—	—	—	4,810	4,810
Total financial liabilities	\$ 24,810	\$ 2,246	\$ —	\$ —	\$ 399,712	\$ 426,768

⁽¹⁾ As at December 31, 2025, the allowance for credit losses on securities at "Amortized cost" was insignificant, and the allowance for credit losses on securities "Classified as at fair value through other comprehensive income" totalled \$24 million. Detailed information on the allowance for credit losses on loans is presented in Note 5, "Loans and allowance for credit losses."

⁽²⁾ Include derivative financial instruments designated as hedging instruments amounting to \$1,749 million in assets and \$131 million in liabilities.

During the three-month period ended March 31, 2026, and the year ended December 31, 2025, there were no material reclassifications of financial instruments.

NOTE 4 – FAIR VALUE OF FINANCIAL INSTRUMENTS

DETERMINATION OF THE FAIR VALUE OF FINANCIAL INSTRUMENTS

For a description of the valuation techniques and data used to determine the fair value of the main financial instruments, refer to Note 2, "Accounting policies," to the Annual Combined Financial Statements. No significant changes were made to our fair value measurement techniques during the quarter. Desjardins Group has implemented controls and procedures to ensure that financial instruments are appropriately and reliably measured.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amount of certain financial instruments measured at amortized cost does not reasonably approximate fair value. These financial instruments are presented in the following table.

	As at March 31, 2026		As at December 31, 2025	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Securities	\$ 37	\$ 33	\$ 42	\$ 37
Loans, net of allowance for credit losses	317,248	316,505	313,083	313,581
Financial liabilities				
Deposits	331,729	334,384	327,248	332,029
Subordinated notes	5,781	5,879	4,810	4,952
Other liabilities – Other	1,726	1,691	1,735	1,722

FAIR VALUE HIERARCHY

Fair value measurement is determined using a three-level fair value hierarchy. Refer to Note 4, "Fair value of financial instruments," to the Annual Combined Financial Statements, which contains a description of these three levels.

HIERARCHY OF FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE

During the three-month period ended March 31, 2026, financial assets of \$13,377 million measured at fair value through profit or loss and at fair value through other comprehensive income as well as commitments related to securities sold short of \$1,167 million have been transferred from Level 2 to Level 1 of the fair value hierarchy. During the same period, financial assets of \$4,883 million classified in the same categories as well as commitments related to securities sold short of \$124 million have been transferred from Level 1 to Level 2. These transfers resulted from obtaining more precise information related to prices or fair value measurement data.

During the year ended December 31, 2025, no material transfers attributable to changes to the measurement based on quoted prices (unadjusted) in active markets for identical assets and liabilities were made between Level 1 and Level 2 of the hierarchy for instruments measured at fair value.

NOTE 4 – FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

HIERARCHY OF FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE (continued)

The following tables present the hierarchy for financial instruments measured at fair value in the Combined Balance Sheets.

As at March 31, 2026	Level 1	Level 2	Level 3	Total
Financial assets				
Financial assets at fair value through profit or loss				
Cash and deposits with financial institutions	\$ 76	\$ 653	\$ —	\$ 729
Securities

NOTE 4 – FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

FAIR VALUE OF FINANCIAL INSTRUMENTS CATEGORIZED WITHIN LEVEL 3

Desjardins Group has implemented various key controls and procedures to ensure that the financial instruments categorized within Level 3 are appropriately and reliably measured. During the three-month period ended March 31, 2026, no significant changes were made to key controls and procedures, valuation techniques, unobservable inputs and input value ranges used to determine fair value. For a description of the valuation process for financial instruments categorized within Level 3, refer to Note 4, "Fair value of financial instruments," to the Annual Combined Financial Statements.

Changes in fair value of financial instruments categorized within Level 3

The following tables present the changes in fair value of financial instruments categorized within Level 3 of the hierarchy, namely financial instruments whose fair value is determined using valuation techniques not based mainly on observable market data.

	Balance at beginning of period	Realized gains / losses recognized in profit or loss ⁽¹⁾	Unrealized gains / losses recognized in profit or loss ⁽²⁾	Unrealized gains / losses recognized in other comprehensive income ⁽³⁾	Purchases / Issuances / Other	Sales / Settlements / Other	Balance at end of period
For the three-month period ended March 31, 2026

⁽¹⁾ Realized gains or losses on financial assets classified or designated as at fair value through profit or loss are presented under "Net insurance investment income (loss)" and "Net other investment income (loss)" in the Combined Statements of Income.

⁽²⁾ Unrealized gains or losses on financial assets classified or designated as at fair value through profit or loss are presented under "Net insurance investment income (loss)" and "Net other investment income (loss)," while unrealized gains or losses on financial liabilities "Classified at fair value through profit or loss" are recognized under "Other income – Other" in the Combined Statements of Income.

⁽³⁾ Unrealized gains or losses on financial assets "Classified as at fair value through other comprehensive income" are recognized under "Net unrealized gains (losses)" on debt securities at fair value through other comprehensive income, while unrealized gains or losses on financial assets "Designated as at fair value through other comprehensive income" are recognized under "Net change in gains and losses on equity securities designated as at fair value through other comprehensive income" in the Combined Statements of Comprehensive Income.

NOTE 5 – LOANS AND ALLOWANCE FOR CREDIT LOSSES

EXPOSURE TO CREDIT RISK OF LOANS AND OFF-BALANCE SHEET ITEMS

The following tables present the gross carrying amount of loans and the exposure amount for off-balance sheet items for which Desjardins Group estimates an allowance for expected credit losses, according to credit quality and the impairment model stage in which they are classified. For more information on credit quality according to risk levels, see Table 28, "Probabilities of default of retail clients by risk level," and Table 29, "Probabilities of default of businesses, financial institutions and sovereign borrowers by risk level," in section 4.0, "Risk Management," of the 2025 Annual Management's Discussion and Analysis.

Off-balance sheet items ⁽⁷⁾	76	44	—	120

⁽¹⁾ Represent transfers between stages before the remeasurement of expected credit losses.

⁽²⁾ Represents the remeasurement of the allowance for expected credit losses resulting from transfers between stages.

⁽³⁾ Represent the change in the allowance due to changes in risks resulting from changes in forward-looking information, risk levels, parameters and models, after transfers between stages.

⁽⁴⁾ Represent the increase in the allowance for new originations or acquisitions during the period, including loans that were derecognized and for which a new asset was recognized following a modification of terms.

⁽⁵⁾ Represent mainly the decrease in the allowance for fully repaid loans, including loans that were derecognized and for which a new asset was recognized following a modification of terms.

⁽⁶⁾ Represent changes in the allowance attributable to drawdowns and repayments on outstanding loans.

⁽⁷⁾ The allowance for credit losses on off-balance sheet items is presented under "Other liabilities – Other" in the Combined Balance Sheets.

NOTE 5 – LOANS AND ALLOWANCE FOR CREDIT LOSSES (*continued*)

KEY DATA AND ASSUMPTIONS

The following information is an update, compared to the most recent Annual Combined Financial Statements, of key data and assumptions underlying the measurement of the allowance for expected credit losses. For more information, see Notes 2, "Accounting policies," and 7, "Loans and allowance for credit losses," to the Annual Combined Financial Statements.

The macroeconomic environment remains highly uncertain, in particular with respect to the evolution of trade relations with the United States, geopolitical tensions and the risk of a stock market correction. Therefore, management has to continue making particularly complex judgments to estimate the allowance for credit losses in such situation. Expert adjustments are applied to the measurement of the allowance for expected credit losses to take into account relevant risk factors related to the macroeconomic environment that are not reflected in models.

The macroeconomic scenarios prepared for calculating the allowance for expected credit losses include the following value ranges over the projection horizon for the most significant variables for credit risk parameters:

	Base scenario		Upside scenario		Downside scenario	
	Next 12 months	Remaining forecast period	Next 12 months	Remaining forecast period	Next 12 months	Remaining forecast period
As at March 31, 2026						
Macroeconomic variables⁽¹⁾						
Gross domestic product (annualized change)	2.1%	1.4%	2.7%	1.6%	(2.7)%	1.5%
Unemployment rate (average)	5.5%	4.6%	5.0%	3.8%	7.1%	6.6%
Consumer Price Index (annualized change)	2.0%	2.0%	2.5%	2.0%	3.2%	2.1%
Housing prices (annualized change)	2.4%	3.3%	5.2%	4.1%	(11.4)%	0.5%
Corporate credit spread ⁽²⁾ (average)	106 bp	118 bp	85 bp	85 bp	195 bp	155 bp
S&P/TSX stock index ⁽²⁾ (annualized change)	15.5%	8.7%	18.7%	10.8%	(34.9)%	11.1%

	Base scenario		Upside scenario		Downside scenario	
	Next 12 months	Remaining forecast period	Next 12 months	Remaining forecast period	Next 12 months	Remaining forecast period
As at December 31, 2025						
Macroeconomic variables⁽¹⁾						
Gross domestic product (annualized change)	1.7%	1.5%	2.6%	1.8%	(1.5)%	1.3%
Unemployment rate (average)	5.5%	4.5%	5.2%	3.9%	6.7%	6.1%
Consumer Price Index (annualized change)	1.8%	2.0%	3.3%	2.1%	2.2%	2.0%
Housing prices (annualized change)	2.2%	2.9%	5.2%	4.1%	(13.2)%	1.4%
Corporate credit spread ⁽²⁾ (average)	106 bp	118 bp	90 bp	90 bp	195 bp	153 bp
S&P/TSX stock index ⁽²⁾ (annualized change)	10.3%	7.0%	16.1%	8.0%	(35.5)%	10.7%

⁽¹⁾ All macroeconomic variables relate to the Quebec economy, unless otherwise noted.

⁽²⁾ Macroeconomic variables related to the Canadian economy.

NOTE 5 – LOANS AND ALLOWANCE FOR CREDIT LOSSES (continued)

KEY DATA AND ASSUMPTIONS (continued)

The base scenario forecasts an acceleration in economic growth in 2026. It assumes stabilization in tariffs, including continued exemptions for goods exported by Canada that comply with the rules of the free-trade agreement with the United States and Mexico. It also assumes a quick resolution to the war in Iran without any significant permanent impact on oil prices and inflation. The unemployment rate in Quebec should gradually decrease by early 2027 to below 5.5%. Inflation should temporarily rise in spring 2026 to rapidly converge back to around 2%. The Bank of Canada should keep its monetary policy unchanged over the next quarters. Two 25-basis points increases in the overnight rate are expected in 2027 as the economy gains strength. This would bring the Canadian monetary policy closer to its neutral position. The housing market continues to perform well in Quebec, and housing prices should increase further in 2026. The momentum should however ease compared to the prior year.

The downside scenario forecasts a recession, which could result from a new escalation in trade tensions, a prolonged oil shock or increased volatility in financial markets. The Quebec real GDP would decrease by nearly 3% over a horizon of approximately one year. The unemployment rate would rise in 2026 and reach a high of 8% in Quebec in 2027. This scenario also assumes that inflation would rise more in the short term due to new tariffs and a prolonged oil shock. Consequently, the Bank of Canada would be forced to raise interest rates a few times in 2026. The discount rate would reach 3.50% at the end of the year, and could then be lowered as soon as in 2027 as a result of the disinflationary pressures arising from the recession. The forecast for the housing market is also more pessimistic in this scenario. The greater uncertainty, in particular with respect to the labour market, would contribute to weakening demand and prices for residential properties. The price decrease could be close to 20% in Quebec.

The upside scenario essentially assumes that the economy will be stronger than in the base scenario, helped by the abandonment of most of the tariffs currently in place. A sharper rebound in investments and productivity gains would help sustain economic growth. Other factors, such as a quick end to the conflicts in Ukraine and the Middle East, could also support the global economy. In this scenario, the unemployment rate could go down to below 4% in Quebec by 2028. The inflationary pressures would however be more considerable than in the base scenario as a result of stronger economic activity. The Bank of Canada could have to raise the discount rate up to 4.00% in 2027. Once inflation is controlled, the discount rate could be gradually cut to 3.50%, which is at the high end of the estimated long-term neutral range. Average housing prices would be driven by a stronger labour market, but hampered by higher interest rates. Ultimately, housing price growth would only be slightly greater than in the base scenario.

The development of the economic outlook after March 31, 2026, will be considered in estimating the allowance for expected credit losses in future periods.

SENSITIVITY ANALYSIS OF THE ALLOWANCE FOR CREDIT LOSSES ON NON-CREDIT IMPAIRED LOANS

Scenarios

The amount of the allowance for expected credit losses depends on the probability of occurrence associated with each scenario. The following table compares the allowance for credit losses on non-credit impaired loans and off-balance sheet items at the reporting dates, which takes into account the probability weighting for the three scenarios, with the allowance for credit losses that would have been obtained if a weighting of 100% had been assigned to each scenario individually.

	Allowance for credit losses on non-credit impaired loans and off-balance sheet items	
	As at March 31, 2026	As at December 31, 2025
Under IFRS 9	\$ 851	\$ 812
Weighting of 100% assigned to the scenario:		
Base	\$ 719	\$ 730
Upside	654	676
Downside	1,224	1,078

Transfers between stages

The following table compares the allowance for credit losses on non-credit impaired loans and off-balance sheet items at the reporting dates with the allowance for credit losses that would have been obtained if all non-credit impaired loans had been included in Stage 1 of the impairment model.

	Allowance for credit losses on non-credit impaired loans and off-balance sheet items	
	As at March 31, 2026	As at December 31, 2025
Under IFRS 9	\$ 851	\$ 812
If all non-credit impaired loans and off-balance sheet items had been included in Stage 1	\$ 696	\$ 674

NOTE 6 – DEPOSITS AND SUBORDINATED NOTES

DEPOSITS

Deposits consist of demand deposits, notice deposits and term deposits. Demand deposits are interest-bearing or non-interest-bearing deposits, primarily accounts with chequing privileges, for which Desjardins Group does not have the right to require notice prior to withdrawal. Notice deposits are interest-bearing deposits, primarily savings accounts, for which Desjardins Group has the legal right to require notice prior to withdrawal. Term deposits are interest-bearing deposits, primarily fixed-term deposit accounts, guaranteed investment certificates or other similar instruments, with a term that generally varies from one day to 10 years and mature on a predetermined date.

The following table presents the breakdown of deposits.

	As at March 31, 2026				As at December 31, 2025			
	Demand deposits	Notice deposits	Term deposits	Total	Demand deposits	Notice deposits	Term deposits	Total
Individuals	\$ 72,295	\$ 4,058	\$ 94,954	\$ 171,307	\$ 74,553	\$ 4,102	\$ 92,631	\$ 171,286
Business and government	65,275	128	96,827	162,230	62,661	139	95,000	157,800
Deposit-taking institutions	558	—	9	567	398	—	10	408
	\$ 138,128	\$ 4,186	\$ 191,790	\$ 334,104	\$ 137,612	\$ 4,241	\$ 187,641	\$ 329,494

SUBORDINATED NOTES

On March 3, 2026, the Federation issued subordinated notes eligible as Non-Viability Contingent Capital (NVCC) amounting to \$1 billion. The notes bear interest at an annual fixed rate of 3.856% for the first five years and at an annual rate equal to daily compounded CORRA (Canadian Overnight Repo Rate Average) plus 1.28% until maturity on March 3, 2036. These notes are redeemable at the option of the issuer on or after March 3, 2031, subject to conditions and the prior approval of the regulatory authority.

On April 27, 2026, the Federation announced that it intends to redeem, on May 28, 2026, subordinated notes eligible as NVCC amounting to \$1 billion and maturing on May 28, 2031, at a price equal to their par value, plus accrued and unpaid interest to May 28, 2026, exclusively.

NOTE 7 – INSURANCE AND REINSURANCE CONTRACTS

COMPOSITION OF BALANCE SHEET BALANCES

Balance sheet summary

The following table presents the composition of insurance contract liabilities as well as reinsurance contract assets and liabilities.

	As at March 31, 2026			As at December 31, 2025		
	Life and health insurance activities	Property and casualty insurance activities	Total	Life and health insurance activities	Property and casualty insurance activities	Total
Insurance contract liabilities						
Insurance contract liabilities, excluding the asset for insurance acquisition cash flows ⁽¹⁾	\$ 26,704	\$ 8,009	\$ 34,713	\$ 26,971	\$ 7,824	\$ 34,795
Asset for insurance acquisition cash flows	(45)	—	(45)	(58)	—	(58)
	\$ 26,659	\$ 8,009	\$ 34,668	\$ 26,913	\$ 7,824	\$ 34,737
Reinsurance contract assets	\$ 996	\$ 831	\$ 1,827	\$ 992	\$ 771	\$ 1,763
Reinsurance contract liabilities	\$ 37	\$ —	\$ 37	\$ 35	\$ —	\$ 35

⁽¹⁾ The balance for life and health insurance includes an amount of \$3,395 million (\$3,547 million as at December 31, 2025) corresponding to the obligation to segregated fund holders and an amount of \$421 million (\$417 million as at December 31, 2025) related to segregated fund guarantees.

NOTE 8 – ACCUMULATED OTHER COMPREHENSIVE INCOME

The following table presents the main components of "Accumulated other comprehensive income" (net of taxes).

	As at March 31, 2026		As at December 31, 2025	
	Group's share	Non-controlling interests' share	Group's share	Non-controlling interests' share
Items that will be reclassified subsequently to the Combined Statements of Income				
Net unrealized gains (losses) on debt securities classified as at fair value through other comprehensive income ⁽¹⁾	\$ 199	\$ 2	\$ 356	\$ 4
Net gains (losses) on derivative financial instruments designated as cash flow hedges	228	—	336	—
Accumulated other comprehensive income	\$ 427	\$ 2	\$ 692	\$ 4

⁽¹⁾ Take into account an allowance for credit losses of \$25 million as at March 31, 2026, (\$24 million as at December 31, 2025) on securities classified as at fair value through other comprehensive income.

NOTE 9 – CAPITAL MANAGEMENT

The goal of capital management at Desjardins Group is to ensure the financial soundness and sustainability of the Desjardins Cooperative Group. To help safeguard a capital level and structure that maintains the confidence of members and clients and optimizes the financial capital costs, the organization has adopted a target capital structure that takes into account the banking industry regulatory requirements, Desjardins Group's ambitions for maintaining its credit ratings and the risk profiles of the organization and its components. The target structure is updated based on changes in the above factors and approved annually by the Federation's Board of Directors.

Desjardins Group's capital ratios are calculated using the Capital Adequacy Guideline issued by the AMF and applicable in particular to financial services cooperatives.

As it was designated by the AMF as a domestic systemically important financial institution, Desjardins Group is subject to an additional capital surcharge of 1.0% and must maintain a minimum Tier 1A capital ratio of 8.0%. Its Tier 1 capital ratio and total capital ratio must be above 9.5% and 11.5%, respectively. These ratios include a 2.5% capital conservation buffer. In addition, Desjardins Group is required by the AMF to meet a minimum leverage ratio of 3.5%.

Desjardins Group also has to meet the requirements of the *Total Loss Absorbing Capacity (TLAC) Guideline* issued by the AMF. The TLAC ratio and TLAC leverage ratio are calculated in accordance with this guideline. The guideline applies to a resolution group deemed to be Desjardins Group excluding CDO. Desjardins Group is required to maintain a TLAC ratio of at least 21.5% and a TLAC leverage ratio of at least 6.75%.

As at March 31, 2026, Desjardins Group was in compliance with the AMF's capital ratio and leverage ratio regulatory requirements.

The following table presents the regulatory capital and available total loss absorbing capital (TLAC) balances, risk-weighted assets and regulatory ratios.

(in millions of dollars and as a percentage)	As at March 31, 2026	As at December 31, 2025
Capital and other TLAC instruments		
Tier 1A capital	\$ 36,423	\$ 36,468
Tier 1 capital	36,423	36,468
Total capital	41,017	40,082
Available total loss absorbing capacity (TLAC) ⁽¹⁾	55,157	53,170
Risk-weighted assets		
Credit risk	126,518	125,293
Market risk	5,956	4,504
Operational risk	24,395	23,884
Total risk-weighted assets	\$ 156,869	\$ 153,681
Total risk-weighted assets for TLAC ratio purposes⁽¹⁾	151,658	148,562
Leverage ratio exposure	481,159	468,023
TLAC leverage ratio exposure⁽¹⁾	472,997	459,957
Ratios		
Tier 1A capital	23.2%	23.7%
Tier 1 capital	23.2	23.7
Total capital	26.1	26.1
TLAC ⁽¹⁾	36.4	35.8
Leverage	7.6	7.8
TLAC leverage ⁽¹⁾	11.7	11.6

⁽¹⁾ Data calculated at the resolution group level that is deemed to be Desjardins Group excluding CDO.

NOTE 10 – NET INTEREST INCOME AND NET OTHER INVESTMENT INCOME (LOSS)

NET INTEREST INCOME

The following table presents the breakdown of net interest income according to the classification of financial assets and liabilities.

	For the three-month periods ended March 31	
	2026	2025
Interest income on financial assets		
At amortized cost	\$ 3,881	\$ 3,834
At fair value through other comprehensive income	382	455
At fair value through profit or loss	154	132
	4,417	4,421
Interest expense on financial liabilities		
At amortized cost	2,091	2,319
At fair value through profit or loss	139	135
	2,230	2,454
	\$ 2,187	\$ 1,967

NET OTHER INVESTMENT INCOME (LOSS)

The following table presents the breakdown of net investment income (loss) according to the classification of financial assets and liabilities.

For the three-month periods ended March 31	2026			2025		
	Net interest and dividend income	Change in fair value and other	Total	Net interest and dividend income	Change in fair value and other	Total
Net other investment income (loss) on financial assets and liabilities						
Classified as at fair value through profit or loss	\$ (42)	\$ 98	\$ 56	\$ (96)	\$ 205	\$ 109
Designated as at fair value through profit or loss	—	(68)	(68)	—	(46)	(46)
Classified as at fair value through other comprehensive income	10	30	40	10	(12)	(2)
	\$ (32)	\$ 60	\$ 28	\$ (86)	\$ 147	\$ 61

NOTE 11 – SEGMENTED INFORMATION

RESULTS BY BUSINESS SEGMENT

The following table provides a summary of Desjardins Group's financial results by business segment.

	Personal and Business Services		Wealth Management and Life and Health Insurance		Property and Casualty Insurance		Other		Combined

Member dividends, net of income tax recovery	110	84	—	—	—	—	—	—	110	84
Net surplus earnings for the period after member dividends	\$ 497	\$ 315	\$ 130	\$ 168	\$ 154	\$ 34	\$ 69	\$ 137	\$ 850	\$ 654
of which:										
Group's share	\$ 497	\$ 315	\$ 130	\$ 168	\$ 137	\$ 29	\$ 69	\$ 137	\$ 833	\$ 649
Non-controlling interests' share	—	—	—	—	17	5	—	—	17	5

⁽¹⁾ In 2026, changes were made to the model used to allocate intersegment net interest income. For the three-month period ended March 31, 2025, these changes would have resulted in an increase of \$85 million in "Net interest income" and a decrease of \$18 million in "Other income" for the Personal and Business Services segment, and a reverse change of the same items in the Other category. Comparative data have not been restated.

SEGMENT ASSETS

	Personal and Business Services	Wealth Management and Life and Health Insurance	Property and Casualty Insurance	Other	Combined
As at March 31, 2026	\$ 394,628	\$ 85,978	\$ 14,167	\$ 29,547	\$ 524,320
As at December 31, 2025	\$ 384,301	\$ 82,940	\$ 14,226	\$ 28,775	\$ 510,242

NOTE 12 – SIGNIFICANT ACQUISITION

On March 23, 2026, Desjardins Group, through Desjardins Global Asset Management Inc. (DGAM), an indirect subsidiary of the Federation, completed the acquisition of all the outstanding shares of Guardian Capital Group Limited (Guardian), a global investment management company that serves institutional, retail and private clients, and was publicly traded. This acquisition increases Desjardins Group's assets under management, strengthens its presence on the Canadian asset management market and supports its international development.

This transaction qualifies as a business combination and was accounted for using the acquisition method. The determination of the fair value of the identifiable assets acquired and the liabilities assumed is preliminary due to the recent closing of the transaction. The accounting for the business combination will be completed in the coming quarters.

The initial estimates of the fair value of identifiable assets acquired and liabilities assumed at the acquisition date are presented below.

	As at March 23, 2026
Identifiable net assets acquired	
Cash and deposits with financial institutions	\$ 705
Securities at fair value through profit or loss	622
Right-of-use assets	47
Property, plant and equipment	5
Intangible assets	109
Deferred tax assets	23
Other assets – Other	106
Deposits	(77)
Commitments related to securities sold short	(24)
Lease liabilities	(47)
Deferred tax liabilities	(6)
Other liabilities – Other	(226)
	1,237
Goodwill	434
Total identifiable net assets acquired and goodwill	\$ 1,671
Consideration transferred	
Cash and cash equivalents acquired	\$ 705
Net cash used for the acquisition	876
Issuance of common shares ⁽¹⁾	90
Acquisition consideration	\$ 1,671

⁽¹⁾ DGAM issued 994,447 common shares, having a total value of \$90 million, representing 10% of its voting shares. The fair value of the common shares issued as consideration was determined under the market approach, using comparable companies' multiples.

Goodwill is attributable to the synergies that should result from the acquisition of Guardian by Desjardins Group. Goodwill is not tax deductible.

Since the acquisition, the contribution of the Guardian operations to Desjardins Group's "Total net revenue" has been considered immaterial. If the acquisition had occurred at the beginning of the year, the contribution of Guardian would have increased "Total net revenue" by \$87 million for the three-month period ended March 31, 2026

Impact on subsidiary ownership

As a result of the issuance of shares by DGAM, equity attributable to Desjardins Group increased by \$23 million, which reflects the dilutive effect arising from the recognition of a non-controlling interest. This transaction is an equity transaction. The cumulative share of other comprehensive income associated with the diluted interest was reallocated to equity attributable to non-controlling interests.
